# Cold Reign: Jane Yellowrock, Book 11

## Synopsis

Jane Yellowrock is a shape-shifting skinwalker...and the woman rogue vampires fear most. Jane walks softly and carries a big stake to keep the peace in New Orleans, all part of her job as official Enforcer to Leo Pellissier, Master of the City. But Leo's reign is being threatened by a visit from a delegation of ancient European vampires seeking to expand their dominions. And there's another danger to the city. When she hears reports of revenant vampires loose in NOLA and out for blood, Jane goes to put them down - and discovers there's something unusual about these revenants. They never should have risen. Jane must test her strength against a deadly, unnatural magic beyond human understanding and a ruthless cadre of near immortals whose thirst for power knows no bounds.

Fiction & Fantasy > Fantasy > Paranormal & Urban

## Customer Reviews

"You have my heart." Cold Reign is Jane Yellowrock at it's best. This was another fantastic addition to this series. If you want a definition of Urban Fantasy, you have it in Faith Hunter's work. After eleven books she has not lost her touch if anything I want to read more about her characters and their evolution. Jane Yellowrock started as a solo heroine. Now, she is part of a family which includes the two Younger brothers, Ed, Bruiser, Molly and Co, and now Brute. It seems some home renovations are in order. She might consider a bigger home too since she keeps on adding more people to her "clan". So what evil is Jane fighting this time? Well, it seems like the Revenant Vamps are back. They are popping up in different places in New Orleans and killing humans without a care.

The European Vamps might be behind their attack. Jane as Leo Pellisier's enforcer is responsible for cleaning the area of the nasty revenant vamps. She's also Leo's security team and of course, Leo never makes things easy by hiding so much from Jane. I do agree with her, she must show him some manners. He pissed me off big time here. Or maybe, she should let Beast do the talking. He's really asking for it. In regards to the romance, If you had read my prior reviews you know I'm a huge Bruiser lover. He's still perfect for Jane in my eyes. I'm very happy Mrs. Hunter makes it extremely clear who deserves Jane in this book. "I love you more than bacon." Cold Reign is an unstoppable action-packed book. From the moment it begins, poor Jane and her friends don't get enough sleep or good food. I was devouring the pages in a desperate attempt to find out what Janie was going to encounter. I feared for everyone's lives in this one. No one seems to be safe. My heart was in my throat too many times. I can honestly recommend this book 100% to any UF lover. Cliffhanger: No5/5 Fangs

You finally get that new book from your favorite author and then you go and devour it in a day. Then your sad because you cant wait for the next one because you just have to know more. That was this book. The europeans have finally arrived and is causing so much trouble in New Orleans. Jane is as amazing as ever and definately can still kick ass! Her family as grown in unexpected ways. The vampires have plots and plans constantly in action. I cant wait to reread this book numerous times as we wait for the next installation. I need more Jane and Beast!

I love jane yellowrock! I'm also a fan of most of faith Hunter 's work. In spite of the numerous and irritating typos, this was a solid and satisfying addition to Jane's story. There is one place in the book where a character has been moved but then is suddenly a couple of pages later back where he had been. But I forgive the poor editing. I'm just happy to have jane back!

Another amazing story in the Jane Yellowrock series. If you have not read this series, you need to buy book 1 immediately.

In COLD REIGN, Jane Yellowrock #11, Jane finally takes on the much anticipated, dreaded European Vampires while dealing with her own changing magical nature. This book will get your heart racing and mind whirling in so many good ways. We have your sneaky Eurovamps coming to town before the official meeting under cover of a magically fueled storm that just will not let up. They are hiding in several places looking to divide and conquer, while doing all they can to kidnap, maim,

and torture Leo, Gregoire, and their prime people, vamps and otherwise. Jane, with her associates and Bruiser, spends much of her time running back and forth between Vamp central attacks, strange human riots, and violence around the city while torrential rains and supernatural lighting nearly immobilizes NOLA. Revenant vampires are causing havoc and harm; they are much harder to put down than the usual ones so all of Jane's fighting and supernatural skills are needed. There is so much amped up magic around that seems to be driving these revenants as well as the relentless tempest. Jane has been having "issues" with her magic so she goes back to her Cherokee elders for help after getting advice from Angie baby's angel. So much has changed with the way she deals with the supernatural domain and as usual, Jane is scrambling to figure out what the heck is going with that world and in her own body. The mystical state of her grey-in-between plays a big role here as well as Jane's learning to control and use it. On a personal front, Jane and Bruiser's relationship seems to be going in a particular direction that is deeper and a bit scary for the loner that she is. Jane would rather fight off zombie vampires than deal with emotions especially her own. And who should show up but Jane's old lying, cheating, heartbreaker ex-boyfriend, Ricky Bo. He is leading an investigation for PSYLED which is one of the many government agencies trying to deal with the chaos both on the human and supernatural front. Ricky Bo has more than a professional interest in Jane along with some unfinished business. People have strong feelings about Rick LaFleur so prepare to be riled up at their interactions. Followers of the Jane Yellowrock series will be pleased to finally see some action between the dreaded Eurovamps and Leo, who as usual has so many plots and strategic moves going on, some dating back centuries, which are so complicated, it makes Jane's head spin. And as always, Leo seems to delight in making Jane as uncomfortable as possible with his physical presence and sensuous innuendos while trying to trick her into doing his nefarious bidding. This book hits the ground running with such a thrill ride pace that you may feel breathless at the end, but well satisfied with the journey.

This is Jane Yellowrock #11. I was given an Advanced Reader's Copy in exchange for an honest review. Holy cow, Jane! what a ride! This book starts off with action and it's still moving lightening fast to the last page. Some of the loose ends that have been hanging around for a few books are starting to get cleared up, questions answered and bad boys are showing true colors. Excellent read. Cold Reign may be my favorite of the series so far.

Wow, what a ride! Jane at her best. European Vamps have taken the long view to gain control of Leo's territory in NOLA. Centuries of plotting, huge betrayals, multiple storylines converge on one big thriller of a book. I read this while we were having a huge thunderstorm, it was like surround sound while reading this storyline unfolding with lightening strikes and hurricane winds. Cannot wait to see what happens next.
