Customer Reviews

Not just for men, but there are cars, trains, planes, motorcycles, guns, fish, ect. So if you're tired of coloring flowers and leaves, this is a great book to try! This book measures 8x10 and is thick with 50 different pictures and single sided pages with black backing. For markers, I would still use a buffer

page, just in case. I haven't tried water based markers yet, but there was some minor breakthrough with alcohol based markers (which is expected)I didn't have any trouble with bleed through with my gel pens, but I still put a blank page behind in case I use a brand that I haven't tried yet on it.The picture I have attached is one I'm working on with colored pencil.

Ã Â This is exactly what I've been looking for in a coloring book. There are no cutesy images to be found in this one. Each heavy page has a unique image on one side and a blacked out page on the other. Each picture has many intricate details for me to spend hours filling in with my markers, pencils, and crayons. There are no repeat images. I am definitely looking forward to getting started with this gem of a book!

Here's one for the guys! Though, trust me, we women will enjoy it just as much.This book features 50 images ranging from guns, vehicles, sexy steampunk or space-age women, farm machinery, and even a western kitty. Lots of fun stuff, and all with details ranging from fine to larger spaces. There are also some bonus images at the back from Wake's other coloring books.The images are on one side of the page, and the back of the page is black to prevent bleed through. I gave alcohol markers a go on a few spots, and without a piece of plain paper between the pages, there was no bleed through. Nice! The book is bound tightly but the images all stop before the spine, and you can get a nice 'spine crease' so pages lay flat for coloring. The paper is medium weight.I really enjoyed paging through this book. There are many images that I will like to color. It could be something a husband and wife share (I'll color a page for you; you color one for me) or give to a favorite friend as a means to relaxing and exploring his inner artist.

All I can say is wow! I've purchased a lot of coloring books over the years but none of them this diverse. It has steampunk images, locomotives, motorcycles, fishing, western, even fantasy. This is a great all around book.Each page is backed with black so you don't get bleed through. I wanted something different and this is it. Very nice detail.

This book is so much fun, even for us girls that happen to dig cars and bikes. I really enjoy this book and the fact that it's different, it's not the same as every other book full of flowers or animals. Wtg Nathaniel you killed it with this one!

This has become one of my favorite books yet. Yes it is a manly book but it has a great variety of

content that all will like. I particularly love the cars and motorcycle drawings and the old western style backgrounds are fun. There are also some great drawings of fish that can be a real challenge if you like to blend your colors. This book is a great bargain with a ton of content!

I really like this book, by Nathaniel Wake. The images are very diverse. I feel that anyone could find a page they'd like to color, there's that much variety packed into the 50, one sided pages (with black backing). I have 2 adult Sons that just may find a copy of this book in their Christmas care packages this year! I'll add an image to my review as soon as I've finished it, but there's a lot of detail, and I don't want to rush it, but I feel that reviews really help sell coloring books, and you don't want to miss out on this one.

What an awesome book for the men too!! First off these are original designs! They are single sided with a black underside which helps with bleedthroughs. This is NOT a thin book by any means. It is a good 1/4" thick book! This is an artist you need to make sure you follow as all his books are very well done! He even gives you pages from his other books at the end of the book. Love the pages in this book! Love the steampunk pages but the man beside the motorcycle is my favorite!
