Excellent condition, book is smaller than expected, but it works

It worked for my class. It's a textbook so don't expect it to be interesting

Easy to read, not filled from top to bottom with dates and names of people you won't remember anyway. This tells you the important information you will need and little else.

History depicts segments of historical events in vague outlooks that don't really pay tribute to the

experiences of all cultures involved.

Good book loved it history is amazing.

Great

Very well written, allowing a balanced perspective of American history- both the good and the bad.

I enjoy the material in the book, but it is full of fluff and repetitive. Writers could have edited it down further. Poor structure.
