Nina had difficulty motivating herself and everything added more stress. Things starts to break down and both begin to fall apart. The plot contains secrets, deception, trauma bonding, kidnapping, death, passion and crazy in love. It arouse so many emotions, it's hard to even describe these emotions. I did love and hate the characters all at the same time. Sometimes it was hard to conceive it all. At the ending there was a surprise and I don't know what to think of that. Maybe another sequel? Definitely a series you have to read. But I have to warn you, it's not a cute, sweet romance but the end was as happy as it could be given the circumstances.

Since it was over a year ago that I read book #1 & #2, I went back and (speed) re-read them just to familiarize myself again with the characters and the roles that played in an attempt to destroy Nina and then ultimately Nina & Alex. They both went through hell and back just to stay alive, sane and together!! I am hoping that this is the last in the series, I just can't imagine either one of them going through any more than they already have, but that very last part (Amy's suicide & letter) left that door open. Amy knew her suicide and the letter could push Alex over the edge, I am hoping it is left alone, that the letter is never shown to her, what would be the point??

That was an amazingly awesome finale to a series of thrilling books. I highly recommend this series to anyone who is interested in a thought-provoking thriller. Michelle knows how to keep you on the edge of your seat with her visual explanations of what is transpiring in all three of these stories. Thank you so much for the enjoyment Michelle.

Just like many other readers I really didn't care for/ or was mad at Alex and Amy. I didn't like how pushed herself on to Alex and how Alex let her. Megs change at the end had me wow a lot and wondering. It seemed like as this series went on the characters and storyline grew more.

Great book, I couldn't put it down. Thank I found myself rushing home to continue the book!!!!

OH MY GOSH!!! Michelle Marra you did it once again with this one. I loved and read it in a day just like I did the others. I got really mad half way through the book with Alex and Amy and I think it was because I predicted that Amy was after Alex after seeing the way she talked to Alex when they met up with them in Italy. I definitely liked the way that the Meg's character changed and had adverse reactions to her death. I really liked how you touched down more on PTSD and the Stockholm Syndrome because I didn't know anything about about the latter so that was nice to see. I am sad to see this end because I loved the series and the characters and I definitely wouldn't object to another book lol wink wink. I will be looking out for more books if you end up writing a new series.

This is was a great book. I loved it. I have enjoyed this series so much.

Great Great!!!! Michelle Marra did it again another 5 Star. She did all the characters justice. I just couldn't put it down. You have to read the first two books. You won't be disappointed with all of

them. Great writing!!!!
