## Customer Reviews

Sayre follows up her salute to vegetables (Rah, Rah, Radishes!, 2011) with this rousing chant in favor of fruit. Rah, rah, raspberries! / Go, go, grapes! / Savor the flavors. / Find fruity shapes! With these staccato rhythms and cheerleading words, Sayre sets the stage for one long chant that will have kids clamoring for a fruit snack. Going well beyond (but including) the standard apple, orange, banana, grapes and berries, she entices readers with such exotics as tamarillo, kiwano, guava, rambutan, currant, durian and the wonderfully named dragon fruit. In piles, baskets and boxes brimming with fruit, Sayre shows off the colors and textures, yet she does not shy away from

depicting even those specimens that are not completely perfect . Taken primarily at farmer s markets, mom-and-pop stores and fruit stands and often including hand-lettered signs proclaiming their farm of origin, her photographs send a subtle message to support local farmers and businesses . Ah, would that readers could pluck Sayre s art right off the page and savor its juiciness .even picky eaters are sure to be tempted. "Kirkus Reviews", April 1, 2012This companion to Sayre s "Rah, Rah, Radishes!" (S & S, 2011) introduces another important food group. Short, catchy rhyming phrases line nearly full-page photos of fruits . The rhythm of the text and the size of the images make this book a good choice for sharing with a group . The book ends with a page on fruit facts and a spread of fruit faces proclaiming: Fruit is fun! Kids are bound to agree. "School Library Journal, "June 2012A companion to "Rah, Rah, Radishes! A Vegetable Chant "(2011), Sayre s newest incantation is a mouthwatering paeon to fruit from such usual suspects as blueberries and strawberries to more exotic tangelos, tamarillos, durians, persimmons, and kiwanos. Along with enjoying the simple rhymes' pounding, elemental rhythms ( Figs are fabulous. / Currants call. / Love a lychee / Fruit eyeball! ), young audiences can feast their eyes on a set of large, intensely colored close-up photos of each fruit in, usually, temptingly heaped-up grocery displays. Closing with a giggle-inducing spread of sliced-fruit smiley faces followed by a final note on fruit s natural functions and nutritional value, this will not only forcibly turn storytime into snack time, but should also be a hit whether read alone or aloud, before or after any meal. We just received this book and my children are enjoying it thoroughly. My kids LOVE fruit and although we are near a whole foods we often don't take the time to inspect some of the more "foreign" fruits like tamarillo and prickly pines (both are mentioned in this story) and some I've never seen at our Whole Foods like kiwano and rambutan (also mentioned in the story) so it's fun to see new and exciting fruits and I think it'll be a fun lesson to read this story and then explore a new fruit. The pictures are beautiful and vibrant - a lot are taken at various farm stands and markets so you get a glimpse of other fruits that may not be mentioned on that particular page which is fine with me - it peaks the kids interest. And the chant is super cute and fun to read. I liked this story so much I ordered a copy of this one and the veggies one for our Montessori school - I know it'll be a favorite there too. Kudos to this author for finding a way to get kids excited about fruit!

I love the content, but some of the photos are blurry.

My daughter loves this fun and colorful fruit book!

Awesome way to teach kiddos about healthy eating. Perfect!

Great

My 1 year old daughter picked this book at the library and instantly became obsessed.... we had to buy it for her. She loves fruit and this book makes her so happy

An awesome book. The pictures are beautiful and the words are fun to read. What a great way to teach. Bought with "Let's Go Nuts!" and "Rah, Rah Radishes!"

My 2-year-old great niece loves "Rah, Rah, Radishes", but it's the only one available in board book format. She's not quite as happy with Go, Go, Grapes in the Kindle version, she prefers books in her hands. I love the fruit and pictures in the book.
