This book is more than just a book, it's a tool kit helping you start from scratch with nothing and create a good film, market it and enter into fests. There is more info on cheapmovietricks.net for more tips and tricks.

This book is perfect for anyone looking to make films. It covers every aspect of taking your concept from script to screen. This book is highly recommended for those who want to get into filmmaking and/or want to know step by step what goes into creating a short film. With Rickey Bird's years of cinematic experience you are in good hands as he guides you through the entire process of creating a short film at a modest budget. Thank you Rickey for sharing your knowledge and love for film with the world. Stay Hectic!!

I teach film and video for high school students and am always looking for great ideas to teach that don't cost an arm and a leg. Not only are there a ton of really good ideas in this book, but the "looks" they give now allow their short films to be entered and compete into short film festivals that will match the competition. My students really like the writing style in the book--the pace is fast and entertaining. Like most independent filmmakers, I don't have a lot of money for my projects, and a minimal amount for my students (fundraising budget), and now this book helps even the playing field.

This guy knows his stuff!! I've been a fan of Hectic Films for years! I am excited to apply some of these cheap, but high quality, tips to my own filmmaking career!
