Olympus At War (Pegasus)

Synopsis

Emily and her winged horse face a war of Olympic proportions in this second book of the Pegasus series. Emily, newly recognized as the Flame, is living in Jupiter's palace on Mt. Olympus. Her friends, Joel, Paelen, and Pegasus, are there as well. The only person missing is Emily's father, who is still being held prisoner by the CRU back in the human world. Emily wants to go find him, but Jupiter won't allow her to leave. However, Emily does have access to a winged horse. Determined to rescue her father, Emily and her friends make plans to sneak away from Olympus and back to New York. Then Cupid, Emily's sort-of crush, decides to come along as well. It will be hard enough to hide a winged horse from the prying eyes of the CRU, but a winged boy as well? And when the gruesome Nirads begin a new invasion, old grudges are unearthed, new enemies are discovered, and Emily and her friends become entangled in a conflict more dangerous than they ever anticipated.>

Customer Reviews

In this latest book in the Pegasus series, all seems swell in Olympus. Surrounded by loyal friends like Pegasus and Paelen, Emily is making the challenging transition from young, mortal New Yorker

to being the physical embodiment of the Flame of Olympus. But Emily knows she and her allies must return to New York against Jupiter's orders to rescue her father from an evil government agency. O'Hearn once again delivers such sympathetic characters, swiftly paced action, and unexpected turns that the occasional clichéd phrasings are quickly forgiven. These books build great narrative suspense—this one involves a scary Gorgon showdown—and the next book undoubtedly will as well. My dear readers, I am Kate O'Hearn, the author of the Pegasus series. I am not writing a review of my own book. However, reading the current reviews on regarding my latest Pegasus title, I am so very sorry for the confusion there has been on the titles of the Pegasus series. Please bear in mind that there is an American publisher for the Pegasus series, and the original English publisher. What has happened is the US series is just being released by Simon & Schuster - and they have changed the covers and titles. As the author, I had no say in this, nor did they do this to cheat my readership. I would also like it to be known that I love these new covers and titles; it is thrilling to finally see Emily on Pegs. However, it is unfortunate that some people have bought the English edition and now believe the US editions are the follow-on to the series. They are not. Here are the English titles and the US titles for each book in the series: Book 1 - English: Pegasus and the Flame Book 1 - US: Pegasus: the Flame of Olympus Book 2 - English: Pegasus and the Fight for Olympus Book 2 - US: Pegasus: Olympus at War Book 3 - English: Pegasus and the New Olympians Book 3 - US: Pegasus: The New Olympians February 19th - Update!!!! I can now reveal the US title for book 4... Please remember, it WILL have a different cover from the UK editions. I myself can't wait to see it! Book 4 - English: Pegasus and the Origins of Olympus Book 4 - US: Pegasus - Origins of Olympus August 9th - Update!!! Here is the title of Pegasus 5 - Remember, there are UK and US editions... Book 5 - English: Pegasus and the Rise of the Titans Book 5 - US: Pending Once again, I

am so sorry for any and all distress this title confusion may have caused you. Sincerely, Kate O'Hearn

It was difficult to get my son (4th grader) to read but Kate's book changed that. She is an excellent writer and her book is fast pace and the story captures my son's attention. My son told me he loved the Pegasus books and wanted to read more. I was thrilled to say the least. He has finished the first 4 books (in 2 weeks!) and now eagerly awaits for the 5th book (coming out end of this year). For someone who is having a hard time to get their little ones to read, try this one. It is not a huge book by any means and the story line is awesome. I would recommend this to a child who is not interested in reading any books. Worth a try!

Best book of the series, yet. My 9 year old daughter started reading the first one, and got me and my husband hooked on the series. It is wonderfully written, and it makes a great heroine for a young girl. This has started my daughter into the love of mythology, and now is addicted to it. She has reread this book countless of times. It has turned her love of reading into a passion.

excellent book. Fast download daughter started reading in min's. price and shipping A+++

Reading the Pegasus series because an 11 year old great granddaughter told me about how much she liked the books. I wanted to understand her reading tastes better in order to know which books would make good presents for her. These books are well written, exciting, and have an interesting plot line, even to an adult.

The Pegasus series has become a favorite of my 9-year old. Since finishing Harry Potter, she's been searching for a new series and I'm happy to say she found one she enjoys.

This is one of my new favorite series. I read all the books (1-5) in one weekend! I stayed up all night reading, but that's not unusual for me. I couldn't put the book down. If I did, I felt like I was dying on the inside. Lol

The first time I read this book I LOVED it! But then I went back and read it again and it got on my nerves. I LOVED the plot and the idea, but the characters. Emily just seemed like a whiny, annoying eight year old. She's all, poor me my dad's gone and I can't control my flame powers. It honestly just

got on my nerves.
