Customer Reviews

Founded in 1915 as the Cartographic Group, the first division of the National Geographic Society, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world. All proceeds from the sale of National Geographic maps go to support the Society's non-profit mission to increase global understanding and promote conservation of our planet through exploration, research, and education.

This is a large, very good map with a lot of detail, and made from much higher quality paper than your average gas station map. A lot of Utah canyon country is still pretty remote, and I wouldn't trust Google Maps on my iPhone alone. Don't leave home without it.

It's so tiny that it's hard to read. The shiny surface doesn't help.

Very helpful while driving in Utah for a road trip to the South of the state. Roads are not too complicated, but you might miss some side activities.

This is just what I needed and the quality is great, highly recommend.

Just what I was looking for.

Useful, good map to Utah

Not great detail.

Nice road map. Very durable.
