"The book is set up with pictures of all the projects and then a detailed and illustrated set of

instructions for needle felting and making one of the dogs. The patterns for the rest of the animals provide the shapes needed to create the animal as well as the details and order to put it together."

There is a very nice selection of different and adorable animals to make. They look very lifelike and the instructions are very clear and well written. The hardest thing for me is deciding which project to make first.

Nice book, but I have a few beefs with it. First, although the colored pictures are nice, they are not put on the same page as the directions. The colored pictures are in the front pages, so when you want to refer to the colored picture, you have to constantly turn back. Yes, there's clear black and white photos, but I would have paid 5 bucks more for them to put them together. That was just dumb.... here we all are, flipping back and forth! Next, being new to this, I'm adding the items to my shopping list.... and see the Florist Wire does NOT list a gauge, only length needed. That said, the designs are cute, directions easy, and pictures otherwise large and nice.

I love this book! Lots of great instruction and adorable animals to make. I made a ferret mama and baby and they turned out so cute!

I love this book! It shows you step by step how to make such cute and also fairly realistic animals. I think this is a great choice for anyone who wants to learn how to needlefelt animals!

I did my first dog, and it came out pretty well! Everybody loved the little pads on the paws!!!

Haven't started this hobby yet, but this book looks to be beneficial for a newbie. Directions look very helpful and the pictures of animals are very cute.

I did not find the instructions easy to follow at all. However I am a newbie to this. Otherwise a very nice book with cute animals!

This is such a lovely book. I just got it today so I have not done a project yet. Can't wait for the weekend so that I can get started!
