Customer Reviews

Praise for The Notebook of Doom #1: Rise of the Balloon Goons:"Cranking up the horrorlarity with googly eyed cartoon figures and sight gags on nearly every page, Cummings pitches his nervous but resourceful newcomer into a climactic, all-out battle with an entire army of aggressive, air-stealing bendy balloons.... An unusually promising series opener for proto-Goosebumps fans." -- Kirkus Reviews
Praise for The Eensy Weensy Spider Freaks Out!"Clever text full of witty asides." --

School Library Journal Praise for More Bears!:"[Artwork that is] infused with zaniness of fun." --

Troy Cummings has been drawing since he was a little kid. His illustrations have appeared in newspapers and magazines, on websites, on frozen-fish-stick packages, and in hospital waiting rooms. His picture books include *The Eensy Weensy Spider Freaks Out!*, *More Bears!*, and *Giddy-Up, Daddy!* *The Notebook of Doom* is his first early chapter book series. He lives in Indiana with his cat and family.

My 7- and 8-year-old LOVE this series. They do tear through them pretty quickly, so they're not very challenging. Good for reluctant readers.

I ordered these books for my son for Christmas. They arrived well packaged and undamaged. Fast shipping which was nice. He loves these books! I have not read them but our son read one to my husband and he said they were really fun books. Our son is 9 and hates to read! He is an excellent reader but would rather play video games all day if we would let him. For him to ask for the whole set and to see him re-reading the ones from school tells me they must be pretty awesome books.

One of my son's favorite series. He started reading these books at 7.

This is our son's favorite book series. The original one not only had him hooked but turned him into a voracious reader. The books are smart, fun, and clever and leave out things that make parents cringe. He loves them so much that he created a birthday party theme around the books that was a blast. I highly recommend *The Notebook of Doom* to parents to start reading to your kids or as a great start into chapter books for them on their own.

We love these books at our house. My son started reading them when he was in second grade and they have become a favorite with all of our children. Even my one and three year olds sits and listens when we read them. They are not scary. They are clever and fun. I even enjoy them. The back days they appeal to first through third grade but I think it is more than that. They are easy enough for a first or second grader to read by themselves.

perfect gift

Great books for 2nd & 3rd grade readers

My son was so excited to get this book hot off the presses. I was a little concerned by the "children's bone chilling horror" genre but he has read several other books in the series and wasn't scared at all. He's in 2nd grade. Don't get me wrong, it's notebook of doom. I wasn't expecting happy puppies.
