Echoes Of Scripture In The Letters Of Paul

Synopsis

Paul's letters, the earliest writings in the New Testament, are filled with allusions, images, and quotations from the Old Testament, or, as Paul called it, Scripture. In this book, Richard B. Hays investigates Paul's appropriation of Scripture from a perspective based on recent literary-critical studies of intertextuality. His uncovering of scriptural echoes in Paul's language enriches our appreciation of the complex literary texture of Paul's letters and offers new insights into his message. "A major work on hermeneutics. . . . Hays's study will be a work to use and to reckon with for every Pauline scholar and for every student of Paul's use of Old Testament traditions. It is sophisticated, in both a literary and theological sense, and written with considerable wit and confidence." Carol L. Stockenhausen, *Journal of Biblical Literature* "Hays has without doubt posed the right question at the right time within the horizon of a particularly important problematic. . . . A new beginning for the question concerning the reception of the Old Testament in the New." Hans Hübner, *Theologische Literaturzeitung* "A powerful reading. . . . [Hays's] careful and fresh exegesis . . . challenges not a few traditional or highly regarded readings. . . . A major contribution both to Pauline studies and to our understanding of earliest Christian theology as a living dialogue with the scriptures of Israel." James D. G. Dunn, forthcoming in *Literature and Theology* "A fresh interpretation of Paul's references to the Jewish Scriptures. . . . Written in a lively, semipopular style, this important study succeeds in showing that Paul's scriptural quotations and allusions are often more polyphonic and rhetorically meaningful than traditional exegesis has allowed." David M. Hay, *Interpretation: A Journal of Bible and Theology*

"Hays has without doubt posed the right question at the right time within the horizon of a particularly important problematic. . . . A new beginning for the question concerning the reception of the Old Testament in the New." *—Hans Hübner, Theologische Literaturzeitung* "This carefully argued study (which is fully indexed and thoroughly footnoted) will be of interest primarily to faculty and graduate students with interests in either biblical literature or literary methods of allusiveness. It ought to be acquired for such audiences." *—Choice* "Elegantly produced. . . . Hays reads Paul's letters as literary texts shaped by complex intertextual relations with Scripture." *—America* "This book is sometimes insightful, sometimes puzzling, sometimes provocative, but never boring. Everyone can learn from it." *—E. Earle Ellis, Theology Today* "A fresh interpretation of Paul's references to the Jewish Scriptures. . . . Written in a lively, semipopular style, this important study succeeds in showing that Paul's scriptural quotations and allusions are often more polyphonic and rhetorically meaningful than traditional exegesis has allowed." *—David M. Hay, Interpretation: A Journal of Bible and Theology* "Rich and provocative. . . . By penetrating and insightful analysis of many texts and by encouraging so many critical hermeneutical issues, Hays makes a material contribution to . . . [his] subjects." *—Karl P. Donfried, Theological Studies* "A major contribution to hermeneutics. . . . An intriguing publication which combines an impeccable knowledge of academic NT criticism with wide-ranging literary interests." *—Arthur Long, Faith and Freedom* "A major work on hermeneutics. . . . Toronto "In the letters of Paul, the serious reader is faced with the fascinating challenge of developing a sensitivity to the resonances of intertextuality, and it is here that Hays makes his weighty and exciting contribution, helping us to sense the remarkable ways in which Paul heard the voice of scripture far beyond the confines of formal citation." — J. Louis Martyn, Edward Robinson Professor Emeritus of Biblical Theology, Union Theological Seminary

Richard Hays in his "echoes" and "Conversion of the Imagination" provides significant insights to Paul's use of the Old Testament. There are many perspectives on Paul these days but Hays understands the apostle rightly. What Hays does so well is not only point out the explicit OT references but the "echoes" and allusions to the Hebrew Scriptures that inform Paul's understanding of who the people of God truly are. This is a great work.

Good, helpful academic book.

Hays points out that Scripture makes extensive use of literary techniques such as foreshadowing, metaphor, allusion, typology, etc. Thus it is best interpreted by a kind of literary sensibility, instead of solely through an analytical, factual approach.

Near the end of the book, you will find these two sentences: "We are children of the Word, not prisoners." "Those who would be faithful to Paul's word must take the risks of interpretive freedom." Those two sentences capture the gist of this lucid, learned and, inspiring book. Mr. Hays is an accomplished writer and thinker that, I dare to say, has been guided by the Holy Spirit. He argues that Paul's main preoccupation when dealing with the proclamation of the Gospel was to establish, through the use of Scripture, that the Christian community was a Spirit led community that had had the Word inscribed in their hearts by God. Mr. Hays shows how Paul's bold interpretation of Scripture becomes a template and an example to follow for all Christian communities when looking for guidance in Scripture. Let us heed this important message by Mr. Hays and may the Spirit of God guide our interpretation of Scripture in order to live according to the Will of God.

Is Scripture an unchanging word, fixed in the past, or is it dynamic, alive, taking on new meanings as it addresses competent readers in the present? Who is a competent reader? And, Richard Hays asks, "If the word is so alive and active on the lips and in the hearts of the community of faith, how then must we read?" These are questions that, directly or indirectly, occupy most of Echoes of

Scripture in the Letters of Paul, where Hays examines some of Paul's highly innovative scriptural readings. He treats Paul's letters as "hermeneutical events," in which Paul reinterpreted Scripture for his churches. More than is usually recognized, Paul made use of intertextuality, embedding fragments of Scripture in his own discourse; in most cases he did so allusively, rather than by direct citation - the reader has to listen to the echoes of the original text in what Paul has written. Often enough, the echo is too faint to be noted. Of one instance Hays writes, "Any reader who knows where the words come from will surely smile in recognition of the point; most readers will miss the point altogether." The immense value of this study lies in its potential to lead earnest readers to a keener appreciation of Paul, as Hays uncovers suppressed allusions in a number of examples taken from Romans, First and Second Corinthians, Galatians, and Philipians. The effect is almost always surprising; sometimes one wonders at Paul's subtlety; at other times one asks whether it is really Hays' ingenuity that has conjured up an echo that did not occur to Paul. As it turns out, it does not matter. Hays argues that to limit the interpretation of scriptural echoes to what Paul intended is to create artificial limitations and restrict the hermeneutical freedom which Paul himself employed. For one thing, "what he intended is a matter of historical speculation;" for another, "Scripture generates through Paul new figurations." The implicit point is that a modern interpreter of Paul can learn from him how to read Scripture imaginatively, yet faithfully. This is treated at length in the fifth and last chapter of the book. Before then, in the first chapter, Hays reviews different approaches to Pauline hermeneutics and proposes his own, taking leads from literary-critical discussions of the "phenomenon of intertextuality." The following three chapters are a tour de force of riveting interpretation. If I have to single out one major theme among several - and which Hays works over and over from different angles - it would be that Paul understood Scripture (i.e., the OT) as prefiguring the church; it was neither annulled nor superseded, but pointed to the gospel as proclaimed by Paul. Hays speaks of the transforming power of Scripture rightly understood. "The meaning of Scripture is enacted in the Christian community, and only those who participate in the enactment can understand the text." He passionately pleads the same point in the page before last, a fitting conclusion to an insightful and original work: "Community in the likeness of Christ is cruciform; therefore right interpretation is cruciform. ... Any reading of Scripture that requires of us something other or less than this is a false reading." This remarkable book has not gone unquestioned by other scholars, and has generated lively debate among Paul's interpreters. Who should read it? There is more than a hint that Hays was writing for the academic community; but non-professionals familiar with biblical (or literary) studies can read it with profit and a sense of fulfillment. All readers must bring to it an energetic and open mind.

This book is so good that I wouldn't take any commentary or treatment of Pauline literature that came after this book seriously if they did not deal with this book. Hays is not just an excellent NT scholar, but also a brilliant writer. All these factors make it a must-read for any serious student of Paul.

Such a profound book. It is such a correction on so much simplistic understanding of the Apostle Paul. Such respect in working to understand but even more respect in working to explain. I just believe God will use this book to help His confused Church. This is for those who want to hear. Here is a quote he refers to in his book by T.S. Eliot "Where shall the word be found, where will the word Resound? Not here, there is not enough silence." Israel had a hard time hearing, now, today, much of the Christian world also has a hard time hearing with so much noise. Maybe some will want to hear. This book will help them. And I'm only half way through reading while writing this....

Nascent New Testament theologians should look to Dr. Richard Hays of Duke Divinity School for how to construct a sentence that is both entertaining and thought provoking. His are beautifully written as well as meaningful. It is Dr. Hays thesis that we can better understand the writings of Paul if we first understand his hermeneutics. And for Paul, that means that he reads consistently the Christian experience through a lens that has been crafted by a fine honing of knowledge from the Hebrew Scriptures. It is in the pulling up of Hebrew Scriptures that preceded or follow the obvious linkage with a particular Pauline passage that we find the most meaning Hays argues. His writing is compelling, understandable and, yes, persuasive. I would commend this book to anyone who is trying to understand Paul and what he means. This is of particular valuable in developing a biblical understanding of the theological implications of Romans 9-11. Dennis Shaw
