Hair Loss Master Plan: Health And Beauty Hair Loss Solutions

Synopsis

Hair Loss Master Plan gives you a step-by-step, practical way to deal with your hair loss challenges. Whether you're a woman dealing with thinning hair, hair loss or alopecia, or a man with a receding hairline or premature baldness, you will find information and advice comprehensive look at the hormonal and other health-related causes of hair loss. "Hormone Hair" is real. Hair loss is often related to hormonal imbalances, including thyroid conditions, adrenal imbalances, postpartum hormone changes, shifts in testosterone levels, and the estrogen/progesterone changes of perimenopause and menopause. Hair Loss Master Plan guides you through the tests to ask for, how to interpret the results -- from the perspective of hair loss. It's not enough to have levels that are in the "reference range." Levels that are not optimal, even if within the range, can trigger or contribute to hair loss issues. Some of the specific issues discussed in Hair Loss Master Plan include: The role of ferritin (stored iron) levels, and why you must have this tested -- and imbalances treated -- if you are experiencing hair loss How even slight imbalances in your thyroid can cause or worsen hair loss, and what tests and treatments can help get rid of this hair saboteur Hair loss in perimenopause and menopause, and what you can do to resolve this hair loss -- from the inside out Hair loss or receding hairlines in andropause for men, and solutions that work to slow or stop thinning hair Nutritional approaches, supplements, medications, and products that can slow and stop hair loss, and help encourage more rapid regrowth Hair Loss Master Plan helps you get the right conventional treatments for hair loss, as well as integrative and holistic approaches, nutritional support, herbal supplements, lifestyle changes, and dietary changes that will help you resolve hair loss frustrations. While you are working on internal and organic ways to stop hair loss and encourage hair regrowth, you still want to look good! This is where Hair Loss Master Plan adds an entirely new element to supporting hair loss sufferers. You will get advice, tips, and information from an internationally-renowned hair stylist and hair loss expert, who walks you through special cutting and styling techniques, hair loss products, and safe, hair-friendly types of extensions that maximize volume and camouflage hair loss, as well as help improve hair volume, texture, quality and regrowth. Hair Loss Master Plan is a one-stop resource for anyone experiencing premature thinning/receding hair, postpartum hair loss, thyroid-related hair loss, or hair loss in women and men over 40.

Customer Reviews

I like this book because it is very informative. Your thyroid doctors don't seem to have enough time to listen to you. I wanted to go to another thyroid specialist but he was not taking any patients. He is the best in the area where I live. So I turned to this book to see if the book could help me find some resolutions....and this book certainly helped me. Thank you, Mary Shomon

This was an interesting book about hair loss and what I can do to prevent it.

Ok

Excellent information, and very understanding to read, Thank You,

The book help we understand reasons my hair could be falling out. Also questions to ask my Dr.

Curly, straight, thin, dry, brittle- this book serves all of our nuances. Hair loss or hair issues are no fun at any age. This was a fantastic read about the whats', why's and how's for dealing hormone hair. Spot on information, wonderful tips, great products ideas and quick helpful read.

From the inside out this book truly is a master plan providing ideas, hopes and truths on hair loss. I never realized how many factors contribute to this devastating challenge so many men and women face daily. I love all the expert advise and product suggestions. A very informative read.

A good and very informative quick read that was great in providing a real plan for what you can do to combat hair loss. I was surprised about how many things can contribute to hair loss. Great advise and product recommendations, super helpful!
