Customer Reviews

Once a week, I run a kindle search for certain authors, hoping for a new book. Roger Stelljes hit that
list with the first McRyan book I read and I have checked faithfully every week. I was delighted to
see Electing to Murder last week and immediately ordered it. The wait between books was worth it.
The book grabbed me from the shots fired at the cabin through the body in the sleazy hotel through
the campaign trail to the White House. I enjoyed the slow exposure of layers in the "enemy camp".
The new characters - such as Dara Wire and The Judge were excellent. I expect we'll see more of
them, but it sounds as if we'll be leaving many others behind. I look forward to more McRyan books
in the future - no matter what direction they go. Just one thing...Roger...write faster.

Stelljes has it going on. Great plots with plenty of twists, plenty of action, and very well developed, believable characters. His whole series is absolutely worth your money, so Roger? Please write more!! I'm giving four stars because, As a retired cop, the malaprop language regarding firearms drives me nuts. I can tell Stelljes has had good advice in writing these, so why doesn't somebody tell him that almost no modern firearms, and certainly not anything made by Sig Sauer or Glock, uses a clip - Its a bloody magazine, and not calling that screams that the author doesn't know what they're talking about. Same goes for "bullets" - a bullet is the projectile, it's part of a round, which includes brass, primer, and powder. You don't load bullets in a clip - See above... Finally, as a lifelong hockey player and blue collar guy from a small town up north, I wish he'd left the getting rich and jumping into the big time out of the series, but that's just me.

I enjoyed Mr. Stelljes first three 'Mac' books enough that I had no hesitation at all purchasing this one as soon as it came out. There is enough convoluted conspiracy plotting in this book to please even the oldest (like me!) Ludlum fan. But I will admit, even so, to being surprised; the insider I figured would be the guilty party was not. I missed some of the fun that the early-in-the-book injury to Dick Lick caused, but I will be glad to see him back in shape again soon. I was very pleased with the two new supporting characters, Dara and Judge, whom I hope to see more of in coming books. While Michael McRyan has not yet -- and probably never will -- replace Lucas Davenport and Virgil Flowers in my list of favorite Minnesota detectives, it's lovely to be able to add a third person to that list. Keep them coming Mr. Stelljes and I'll keep buying them.

I really enjoy Roger Stelljes novels, however this one just wasn't for me. I guess it was mostly the subject matter that I found BORING, but that still didn't change his great style of writing. I'm on to his next novel. Roger, stay away from from political novels, we've had enough in our own lives shoved down our throats!!!

This book could be another House of Cards. Main character Mac is bipartisan, and I believe author is too. Good level headed Republican vice president and democratic governor Minnesota, running for the presidency. Campaign manager Connelly for the VP is thousands times worse than Karl Rove, VP son also helping. But he's not like his father. In the other side, respected MN judge and his trusted investigator ex-FBI Wire. Super packs, big money, election fraud. Innocent people trying to expose the irregularities in this campaign is being killed, Mac McRyan, twin cities favorite good

cop starts to investigate the murders. This author never fills the pages with long, useless dialogue or descriptions, every sentence clearly lets the readers understand his characters. Good read, especially in this election year.

Roger Stelljes will make you lose sleep because you won't be able to put this book down! You just have to know... Mac McRyan's adventures in Electing to Murder have him ducking bullets and exposing political corruption and will have you totally engrossed to the last page. Stelljes reaches a new height with this McRyan series book. A must read!

Enjoyed the new characters (Wire) and Mac's constant loyalty to his girl. The twists and turns of the story were believable and well written. Two additional thoughts to improve it - Sally is dull as a character. Mac's personality and sense of justice are well developed, so his reasons for falling for Sally leave you wondering....what's so interesting about her? Glad to see he eased off everyone having nicknames (Riles, Rock, Dick Lich, Double Frank). It was getting old. Finally, it would've been cool to be more surprised by the Bishop's identity. I'm picky though (obviously)! It's was a fun read, regardless, and the Mac McRyan stories are getting better with each new book! Well done.

This series just keeps getting better and better ! If you are new to this author , start at #1 and go on . You need to get to know the main characters first to truly appreciate the series . I read alot of crime novels and would highly recommend these.
