## Synopsis

From the author of His Kiss; and Fall For Mel had a "thing" for Faith Turner the first moment I saw her--when I saw her dancing in the abandoned gym. We were only twelve at the time. Now it's five years later. I still have my thing for her--stronger than ever ... but I'm STILL not sure how she feels about me. Maybe it's best this way. I tend to hurt girls--they want more than I can give. But the thing is, I want to give Faith everything. She's my little dancer--my life. She just doesn't know it. Who am I? I'm the only guy Faith ever let into her life. I'm her best friend. Well, I was. Now, unfortunately, things have changed.

Summary of the book: When Faith is stalked by a boy at her new school, a secret admirer comes to her rescue. Only who is the admirer and how does he know so freaking much about her? It's kind of freaking her out--until she discovers it's the smokin' hot guy she's been secretly craving--her ex-best-friend, the guy she has secretly wanted to kiss since she was twelve. Awesome! Only, is he craving her back ... or what?

This is a standalone novel. It is 70,000 words (300 pages). The ending is not a cliffhanger. No other book needs to be read before this or after. The book is loosely based off Melanie Marks's short story, also titled "Little Dancer" that was first published a few years ago. One of the storylines is also loosely based off Melanie Marks's book, Always Hers. However, Always Hers is a paranormal story and this novel is not. Melanie's newest book is: THE PLAYER (plus: Ally Has Amnesia)

## Customer Reviews

I loved ever sentence of this.book from beginning to end I loved it I couldn't put the book down literally I ate my chili dog while reading it and didn't stop until I was done in a day at 1 o clock in the morning

i didnt like it

great story

Not my favorite. In fact, this book left me a little sick to my stomach.First, the romance begins when they are twelve and I have to say, I was with Rune' s mom on this one. They were way to young for such an intense relationship.Second, she had already had a super intense relationship with an older boy who turned out to be unhinged. She was barely 12. What kind of parent is cool with a twelve year old girl having an older boyfriend and going on dates and being that serious at that age. I know she did some fibbing near the end but her parents should have been more aware. They were way too clueless. (Plus, she has how many more stalkers and slightly too obsessed boys in her life later? That was a little too much to swallow.)Third, what kind of mom lets her 12/13 year old stay alone while she is out of town and expects her to cover for her at work when she has headaches. I get it, they were migraines, but no way should her child be covering her shifts. And it doesn't matter what was going on with Faith' s aunt, Faith should have been her number 1 priority.Fourth, it got a little too Wuthering Heights for a while there. I don't mean that as a compliment and I'm not saying the stories were the same either. The similarities were in the needless torture. They tortured each other using their love against one another. Not as cruelly or wildly as Heathcliff and Catherine but purposely, selfishly, immaturely, and unnecessarily. Come on, at least Heathcliff and Catherine had a reason they couldn't be together. Unless you count Rune' s "teenage boy needs" as a reason, Rune and Faith had no reason other than an unwillingness to be honest. Of course they were just children so I can't say I was really rooting for them to get together until the end. The intensity of their relationship at such a young age was uncomfortable to read.Then at the end, it was kind of a let

down. They went through all this years of torture and now they are finally at an age where puberty has wound down and more adult like emotions and responses have kicked in. I, as the reader, am finally on board with their love and all they get is a fizzle of a conclusion. It was hardly satisfying. As I said, not my favorite.

This story was very frustrating. The reviewer who said that Rune and Faith torment each other for no good reason other than because the plot would fall apart without it was completely correct - the story could have been a quarter of the length and much better if they hadn't been playing stupid games with each other about "I love you, I love you not". The author tries to save all of the crazy in the end by justifying Rune's behavior with him not wanting to be all creepy-stalker like her previous boyfriend, but honestly, it didn't work. They were thirteen/fourteen -- it should have been perfectly fine for them to just be friends and honestly, it doesn't paint Rune in the most flattering light for him to be using another girl to distract him from the girl he supposedly really loves. True love doesn't play games. Lastly, because I've read a lot of Melanie Marks' stories in the last few days, I noticed that some of the scenes were reused from other stories, almost word for word. That was very disappointing and frustrating. I have no idea why she did that or how she thought that would be okay - did she not expect her readers to read her other books?

this book is more amazing than any book i have ever read. the story is the most beautiful love story i have ever heard and positive that i ever will. not only is it a beautiful story but it is also beautifully written. I cried half way through and my tears did not stop coming until about an hour after i finished the book, and i have never cried because of a book. in my opinion there are three kinds of books; ones that are bad so you don't recommend them, ones that are pretty good so you recommend them and then there are the ones that are so amazing and special, that you want them for yourself so you don't recommend them. i was seriously considering writing a horrible review for this book because it is the kind you want for yourself, but after i read it i saw that it was rated 2 stars and thought the author deserves the truth even though im kinda hoping no one else reads this book. anyway this is by far and i mean far my favorite book and trust me i have read a lot over my years. so i highly recommend this book even though i don't want anyone to read it.

I really loved this book. I thought it was great, dramatic, and beautiful. The characters are awesome although they're also not the nicest people. They do things just to torture each other. I thought part of it was a little farfetched. Like her having a serious relationship before she was 13 years old and

with an older guy. Also she fell in love with Rune when she was 13. And there was a part when it looked like she just copied and pasted it word for word just changing the names, and a few tiny details from her another one of her books "Love... Maybe Wars". Other than that I thought that the book was perfection.

To be honest, I stopped reading in the middle of the book because it was too frustrating!!! They kept on "torturing" each other by not telling their feelings. They kept hiding from each other. DO YOU LIKE HIM OR NOT??? I don't get the point! Why can't you just tell him? Oh, well, you're afraid that you'll get hurt? Well come on, he's STALKING you!!! Ugh Jesus Christ! It's like giving you the answer to an equation and you saying you don't know the answer. Seriously, stop acting dumb! Another thing is that the author keeps on using the same lines from other books like the person stalks the girl and blah blah blah... anyway, I don't recommend it.
