The Passion Of Jane (Mayfair Menage Book 1)

Synopsis

A disillusioned rake with a shameful secret. A beautiful woman, hiding her passionate nature. A soldier, who has given everything for his country. Jane Vernon buried her sexual appetite for years while married to a cold and distant man. She returns to her father's house as a penniless widow and begins volunteering at a London hospital. While nursing injured soldiers, Jane's passion is suddenly sparked by the beautiful officer in her care. The problem? First, he's unconscious and then he disappears. A chance encounter with the Earl of Shevington follows. He is a man bent only on his own pleasure, but his caresses further fan the flames of Jane's awakening desires. Scandal threatens and Jane is once again stuck in a marriage of convenience. Her new husband incites her cravings even while she endures his stern discipline, but she cannot trust a man like him with her heart. When her soldier unexpectedly returns to her life, Jane must face her deepest fears and accept her darkest desires. Publisher's Warning: Contains scenes with elements of BDSM, ménage, and graphic sex.

Customer Reviews

Might have been 4 stars were it not for two major decisions/actions by Jane that bothered me

(though I did understand how they fit within the story as presented) and 1 angry moment by Gabriel. Super hot but not so much that it eclipsed the story. This was my first book by this author and Spanking is not necessarily my thing, but this one is well done. I will check out more of her work.

I enjoyed this beginning to a new series and can't wait for more stories in the Mayfair Menage series. From the first page to the last I was engrossed in this tale and the delightful characters that kept the pages turning. Widow, Lady Jane Vernon, is once again trapped, back at her father's home, and wish she could just find a place in the country and escape, especially from her hateful stepmother. Her only joy is working at the hospital assisting the nurses and aiding the soldiers. She is enamored by one particular soldier who has been unconscious but has a way of sparking passion in her, and then one day he is just gone. From attending a ball, trying to avoid another forced loveless marriage to a man Jane can not tolerate, she hides and is confronted by a rakish gentleman who shocks her with his blunt words and challenges her to a tryst in the library. By the next day, it is scandalous news in the paper, and Jane finds herself into a forced marriage of convenience to none other than Gabriel, the Earl of Shevington. There are a physical attraction and plenty of passion along with discipline. What happens when her soldier reappears and he is her husband's best friend and former comrade, Major Connor Sullivan? The man has haunted her dreams and fantasies, but she is married. What will happen if Gabriel learns of her indiscretion while working at the hospital? The story is full of secrets on both sides and the consequences when the truth comes to light. How will Gabriel decide what is best for Jane, himself, and Connor, a man who not only saved his life but it as a brother to him? Sharing a woman as two single men in the past was one thing, but what will they do now that each man loves the same woman and she, in turn, loves both of them? What society doesn't know won't hurt them. The story is explicit in sex scenes, has infidelity, forgiveness, plenty of discipline, and ménage à trios.

I did not want to put the book down. It had love, suspense, and sex. It was well written. I'm not good at writing reviews.

Like Gran's advice for when you have nothing nice to say.

When I first began reading this book I was not sure how I would like the rest of the story. Jane's actions in the beginning were not what I expected; however, as it continued I became engrossed in

the story. Jane was an unhappy widow from a loveless marriage. After taking care of an unconscious soldier she began learning about herself and her inward desires. The last thing she wants is another unhappy marriage. As for Gabriel, he hides his past hurts behind his playboy antics and hard exterior. When he meets Jane, his eventual feelings surprise not only Jane but himself as well. However, when Jane's soldier reappears in her life where will this leave her husband within her heart and their bed? I highly recommend reading the first book in this new series. The storyline is well written and kept my interest from start to finish. The characters are well developed and each harbor their own secrets that will bring twists and turns along the way. The secondary characters only add interest to the storyline. Some you will like while others you may hate, but they all serve a purpose. There was family relationships (both good and bad), secrets, infidelities, love, lust, greed, kidnapping, friendships, punishments, spankings, and confusion, but above all love. This book is a must read! I voluntarily reviewed an advanced reader copy of this book.

A woman working as a volunteer nurse, who performs oral sex on an unconscious patient, cannot be all bad. Actually she's a slut with a good heart, and allows herself to be banged at a party by Gabriel. Gabriel is sadistic, to say the least, and enjoys spanking and abusing Jane. She marries him, and the novel spends a lot of pages describing the humiliation she endures. Gabriel says he loves her, but this is not believable. Jane says she loves him, but this is also incredible. Another man appears who partakes in taking Jane, abusing her, and treating her like a common trollop. He was the recipient of the blow job early in the novel. The author writes well, but asks us to stomach distasteful sex acts. Gabriel needs therapy, but in old England I suppose it was common practice to treat your wife worse than a dog.

After reading the first few pages of this story I was hooked until the end. It has good character development with them being complex and interesting and the plotline has many twists and turns. This story deals with sadness, loyalty, love, risks, and conflict and so much more. I think it was beautifully written and very engaging and loved how the author brought everyone together in the end. I voluntarily reviewed an advance reader copy of this book.

I wasn't sure about this one in the beginning. It just seemed to have too many characters going in too many directions, yet somehow the author managed to pull them all together for a really good story. This was my first book by this author and I definitely look forward to reading more from her in the future.
