# Summer Brain Quest: Between Grades K & 1

## Synopsis

Stop summer slide, stay summer smart! From the creators of America's #1 educational bestseller Brain Quest comes Summer Brain Quest: Between Grades K & 1—a workbook, a game, and an outdoor adventure! It's an interactive and personalized quest to keep kids excited about learning all summer long between Kindergarten and 1st grade. Summer Brain Quest: Between Grades K & 1 begins with a map that guides kids through a workbook filled with activities based on phonics, reading, writing, counting, shapes, seasons, habitats, map skills, and more! As you complete activities, you earn stickers to track your progress on the map. Jam-packed with curriculum-based exercises, bonus challenges, outside activities, over 150 stickers, a summer reading list, and a Brain Quest mini deck, Summer Brain Quest: Between Grades K & 1 covers the core concepts in English language arts, math, science, and social studies so kids keep essential skills sharp all summer.

150+ Pages of Learning Fun

A whole summer's worth of curriculum-based exercises on math, reading and writing, science, and social studies, written by

experts and vetted by award-winning teachers. **Foldout Summer Progress Map** Includes a full-color, foldout map that guides you through the workbook for a personalized and interactive learning quest. **Over 150 Stickers** Over 150 stickers to track progress, reward bonus challenges, and celebrate accomplishments. **Summer Reading List, Outdoor Activities, and More** Includes fiction and nonfiction reading lists, outdoor learning activities, certificate of achievement, and a Brain Quest mini deck for on-the-go fun.

Workman Publishing Company has been producing award-winning calendars, cookbooks, parenting guides, and children's titles, as well as gardening, humor, self-help, and business books, since 1968. From our **What to Expect®** pregnancy and parenting series and **Page-A-Day®** Calendars to the iconic **1,000 Places to See Before You Die®** and **Brain Quest®** children's products, our wide range of high-quality non-fiction titles and products inspire, educate, and entertain readers around the globe.

**Mm** Circle each object that begins with m. [pictured: muffin, mouse, rabbit, map, flower] Write an uppercase M to complete each word. **March** **May** **Monday** Write an lowercase **m** to complete each word. **man** **at** **ud** **m** **m** Upon completion, add this sticker to your path on the map!

I really like this book. They have awesome activities and the map with stickers is so much fun for my 1st grader. She is finally at a reading level where she can make it through the simple instructions usually on her own making this a very independent project for her. There is a good mix of activities. Some of the science stuff is too easier for her, but it gives her an easy page/break from the math that she finds less fun. I have used a lot of these activity books and I would definitely recommend this to help keep kids busy over the summer or as a supplement during the school year. A kindergartner can handle this book, but may need more help reading instructions than a first grader.

This workbook has great graphics and colors, and I love the "map" in the back. However, I wasn't always a big fan of their content/work - we loved some things, but other were just lacking for us. I guess it really depends on what you're looking for in a summer workbook as well as your child - I really wanted something that reinforced things my child has learned while also challenging her a little. Again, it is all personal preference and while I think this is a good workbook, I just prefer the other summer workbook we ordered (summer bridge activities).

My kiddo loves doing workbooks, and he really enjoys this one. The pages are in color and include a lot of different subjects and activities, from coloring to writing to reading and reading comprehension. There are activities around plants and animals and communities as well as the standard alphabet and math, so it covers a lot. I think what makes this so unique, at least as far as I've seen, is the sticker reward system included. Each activity page, plus some bonus questions, earns the child a sticker to place on a map at the back of the book.

This is an excellent book for the Summer. We have been working on it together and it gives him a chance to reinforce what he has learned in K and move forward with his skills to do more. He feels good about the activities and although some seem harder, he is enjoying the challenges. It's a good way to spend some downtime between soccer, swimming, bicycling, gardening, and summer activities. Great for the age appropriate identification on the book.

I recently bought this book to help my daughter keep focused over the summer and she LOVED it!! The sticker chart was a huge motivator! She loved completing the lessons and then putting the sticker associated with the lesson on her map! I really liked that she could do the majority of the lessons on her own once the directions were read and explained. Will definitely be using this book series next summer!

This book is great. It's laid out nicely and has great motivation. After each page your child earns a sticker and puts it on a map to watch their progress. At the end they get a certificate. My child keeps looking at that certificate just waiting for the day that it's hers. I really like this book.

This was the only workbook my child liked. I love how they have sticker map. This book was so interactive with coloring, math, language, and interesting challenges.

Well laid out. My grandson was able to do much of the work and he is transitioning from pre-K to K. We used an M&M reward system - worked through four pages each day and got ten M&Ms. M&Ms meant more to him than stickers.
