Woods"What better way to go through the year than looking at and wondering about nature with your kids! A great activity book for budding naturalists." -- Elizabeth Kolbert, author, Field Notes from a Catastrophe"If I could choose one person to be my child's Rachel Carson-esque grandmother, then I'd choose Clare Walker Leslie. One of the best purchases !

What a wonderful homeschool resource!

Cool book. My kids disappeared with it and have come up with a variety of ways to go exploring.

Great for our Nature Study. Lots of good information and chances to use your imagination.

YES! YES! YES! My best purchase of 2014. Great book, completely inspired! I use this as part of our homeschool curriculum. So fun to share with my kids.

Such a fantastic book for kids. It is educational and great to take outside, hunting, camping, or just getting into nature! Perfect for my 2nd and 4th grader!

Great book, great condition!

We have added this in to our Homeschool curriculum! We've spent hours outdoors observing, and then off to the library to learn more. It's rare to have quiet introspective moments with a 7 year old boy, and this workbook accomplishes that each time. Thank you!
