# Time Travel Adventures Of The 1800 Club: Book 5

## Synopsis

Chapter I The Ulysses S. Grant Mission What would happen if the Confederate Forces captured General Ulysses S. Grant? First off, he was the best general the Union Forces had and that could open the way for the North to lose the war. Secondly, he would never have become President of the United States of America, as he would not have been the hero he was. And with the Confederacy winning the war, Great Britain might have entered the war on their side. This would have split America up forever ensuring that neither would become a super power and after awhile Japan would be the real power in the Pacific. The club sends Robert Andrews, a world-class balloonist and hang glider to prevent this from happening. After a long train and boat ride with Union Forces he finally gets to the General when things quickly go wrong. With the help of Angie Verdi, a pretty seamstress and volunteer nurse, Robert chooses to use technology from our time to complete the mission.

Chapter II The Civil War Spirit Mission Why would a Union soldier's spirit linger around the battlefield for a few hundred years? This question was answered by a special mission back to the time of the Civil War by one of the Time Watchers group, Fred Wiatre. As a club member he dresses like his ancestor did, a Captain in the Union Army and easily enters the camp where Trooper Ponds, the future ghost, is alive and well. His mission: To find the reason that Trooper Ponds stays around after he's killed.

## Customer Reviews

I love history and I'm fascinated by time travel, so it isn't surprising I chose this for my next book to read. I had already finished the first three books in the series, and this was like sitting down with an old friend to head another enjoyable tale. This time, General Grant has to be rescued and, in the companion story, an Army trooper's reputation must be restored. I understand that these books were written for younger readers, so there aren't any dark plot twists or complicated motivations. But the stories do provoke some thoughts about how we would feel if we went back in time, some ingenious solutions, and a few suspenseful moments. The historical detail is very interesting too. So I thoroughly enjoyed this book and recommend it to anyone looking for a light, entertaining diversion.

I'm going to write a generic review of the series... I have read all of the books thus far and REALLY enjoyed them. The premise is quite interesting... although I am not one that has issues with suspending disbelief. Come on, it is a time travel novel... assume that there will be some disbelief to be suspended. The characters are good... not quite on par with some of the big name writers, but certainly well above average. Their depth could be increased, but they are 3D enough that they aren't distracting. The plots are what make the series shine. I love history, and the author delves deeply into things that are often glossed over... like the smells and dirt... And while I will admit that I'm not an expert, the story lines are quite plausible, given that we ARE talking about traveling in time. Overall, I would recommend EVERY book in the series. They are a lot of fun.

I thoroughly enjoyed this as well as all of the books in the 1800's Club series. They're easy reading and helps you to see parts of history that may not have been in the history books such as the colors, the smells, the NY skyline throughout the years... It also brought some insight as to those folks who affected history, but we've never heard about. The ancestors of current day (within the last 50 years) high profile people. One thing I would suggest - please have someone proof the e-copy for spelling/grammatical errors. Even though spell check may go over the whole document and the 'spelling' may be correct for certain words, that doesn't mean that that particular spelling is accurate in the context of a particular sentence. All in all - I have really enjoyed these books - they

remind me somewhat of the movie 'The 13th Floor'.

If your into time travel and a few unexpected twists this is the book for you, They are light reading but I truly could not put it down and when I was done I checked to see if in the last 24 hours he had written the next installment or told me about his next adventure, yes I have read all 8 books an look forward to many many more.

I have read all the books in the series, so obviously I like them. The research on the various times is thorough and I really enjoyed reading all the detailed descriptions.HOWEVER,with that said, the poor proofreading, misspelling, bad grammar and the like was very irritating.I do recommend you read these books anyhow -- just gloss over the irritating little errors. As I recall volumes 4 and 5 were the worst for this. That's why I'm only giving 4 stars to this series.I hope the author will look these books over carefully and correct them (or get someone to do it); in that case, this series will be a 5-star winner!!

This series presents more interesting stories about the travels of members of the 1800's Club. The members of this group meet on various evenings for dinner and conversation. They dress and speak as if they were in the Civil War era. Now and again, people in the future notice that events in history have gone astray. They let the president of the 1800's Club know and he goes back or sends back a member who has the skills to correct the problem. I buy the next book in this series every time a new one comes out.

Holds your interest. I would tell any of my friends to check these books out. Especially if you want to know how we use to live.

I've read all five, one after the other. I still love the series, however didn't enjoy the first mission as much as all the others. That is the only reason for 4, instead of 5 stars. Mr. McCauley redeemed himself, believe it or not, with the ghost story. I'm ready for book 6!!!
