Customer Reviews

Yeah, be careful of this book. There are a few disturbing scenes. Lots of beheadings. Nasty stuff done with the heads, also.

I keep buying these books on my son's requests. He is 10 and he's been reading them for over 3 years. The subject is not always covered but the books are good starters for young readers to look for more information if they need it. Recommended.

Kids who don't want to try non-fiction because they think it's boring will really be surprised to find

that real amazing people are interesting to learn about. This series is a great way to get your non-fiction haters to become interested and want to learn more. My young readers love telling me about these true heroes!

Daughter loves the book, nice addition to the "Who Was" series

Love these books as they are a perfect introduction for kids to these historical figures. My daughter loved Ghenghis Khan. I highly recommend it. Whoemver wants to read only about inventors and atheletes should not be buying these books. Ghengis was a man of his time. I think it was very well presented.

I chose this rating because this was a really informative book, and I t was fun to read with the word choice and context.

Great overview of an important historicalFigure that kids usually don't learn much about.

Thanks
