Customer Reviews

Has some good instructions in but not enough dolie patterns for the cost.

LOVE THIS BOOK

good diagrams, but fairly simple patterns,

One of the worst tatting books I have ordered. Most of the patterns are taken from OLD books and have been published in most other tatting books. Some people have even dared to copywrite them; at least this book didn't do that. Seriously, this book is NOT worth a penny or your time!

Easy to read on the, I like being able to zoom in and see the sample stitches on the Kindle.

This book does exactly what it advertises. A nice selection of patterns that are useful for edgings or insertions. Clear directions and beautiful pictures of the finished product makes patterns that are easy to follow.

I find the book easy to follow and I have made some of the items in the book. Do need experience in tatting.

Patterns are mostly so simple as to hardly qualify as a pattern. Suitable for beginners, otherwise there's not much in here of interest.
