## Customer Reviews

The author has taken the time to research and present some very extraordinary information on black Jewish tribes. A short read but very inspiring.

There are stories amongst us even in the year 2016 that was passed down to us by our ancestors That majorities of the descendants of the African slave trade are true sons and daughters of Abraham Isaac and Jacob Our heritage is being revealed in this time for all to behold Great work of the Devine King.

It was a good read it was just hoping for there to be more discussion about where else are the

Hebrews today and not just solely focus on the lemba. I also think that there might have been a slight undertone staying that the white Jewish people could actually be of true hebrew heritage because of intermixing from thousands of years ago...don't quite like that concept but otherwise an interesting read for .99 cents.

More like a chapter of notes than a book, but adds more seemingly credible evidence to a black Hebrew race and a black Jewish Messiah some call Jesus or Yahushua.

Insightful book.

Very interesting material, it changes the way a person views and interpretes the story of salvation especially racial attitudes issues underlined in the story of salvation.

Very educational and an eye opener. As a black americal I've been searching for my roots and can see parts of what happened to Israel I wish the book spoke more about west Africa though.

has not completed but love it so far in courage you bye it lbeneby
