## Customer Reviews

I read this book and got more than I expected. I had no knowledge of the Mauritius and Maldives islands before getting this book. Kerry made the islands very appealing and may have just have

uncovered a secret spot for newlyweds and married couples renewing their vows. I took a few notes on some of the romantic things to do with your spouse. Never know when you need to get out of trouble and set the mood. Good read. I highly recommend engagement couples to purchase this book and keep their options open regarding honeymoon locations.

The Maldives and Mauritius were not places I would have considered for a honeymoon. But reading this book has opened my eyes to new dream destinations. Kerry has given us some history about the people and their culture along with excellent information to help you plan and enjoy what will become a trip of a lifetime. You get insider information tips and suggestions a travel guide won't give you. Plan your trip based on what your lifestyle is. Want to lounge and be pampered? Would you rather go diving or hiking .... Beaches, mountains, forests it's all there waiting for you to explore. This would be an ideal second honeymoon or special anniversary destination also.

Read this by an author who lived on the islands. Traveling anywhere is best done by learning from the locals before you arrive. The author gives you the best places to stay and tells you why. There are even a few pitfalls to avoid while rummaging around the islands. Many options help you decide if you want a luxury hotel or a little grass shack on the beach. Sleep all day or visit mile high waterfalls and spectacular vistas only available in the Maldives and Mauritius.

What a beautiful & delightful travel book! We've been to many islands but never gave thought to these before - but we will now. The book explores more than just tourist or travel guide info. It covers history and culture and gives a wide variety of exposure to the destinations. This book is for more than just honeymooners - it's for anyone! A Great read and resource! I highly recommend buying this book - even if it's just to read!!

Paradise, the islands of Maldives and Mauritius. This book unveils these beautiful paradise island locations to the point that you want to book your flight out tomorrow. Not only are they great honeymoon destinations, but fantastic places to go for any occasion for the person looking to get away from it all and enjoy the sun and the fun. Very informative of the local culture to expect and the natural beauty to visit. Recommend it.

My cousin is having a summer wedding and I am paying for their honeymoon as a gift. With that said, I also get a say so in where they will go. I grabbed this book to get some ideas of places to

send them. My cousin is the type of person who loves to explore and I love how the author gives us some info about the people and the culture of Maldives and Mauritius. She will love it. I recommend this book.

Although I am married for many years I purchased this book because I was interested in finding out information about Mauritius and the Maldives. I did not know much about these resort areas and that piqued my interest. I have to say Kerry did a wonderful job on this book. The information about the 2 areas is outstanding and her recommendations are top shelf! I would not hesitate to purchase this book as it is value packed!

Very nicely detailed book about the maldives . The author has done very nice research and got a lot of good information collected about the places to go and the things to do. It seems to be a must go place in our lifetime not just for honeymoon but even for a nice little vacation. Great book..
