While I'm not really a spiritual or religious person at all, I came across this book and decided to get it for my mother who recently got into this kind of stuff. And I must say, she's been quite pleased with what she read. The book emphasizes the power of belief, claiming that the simple act of believing can lead to miraculous and unexpected healing. My mother claims that she experienced this type of miracle on her own during her childhood, and she congratulates the author for spreading this type of knowledge.

This is a very powerful book about how you can heal yourself from sickness. the author explains that the miracle is in your spirit. So it is upon ourselves to take responsibility for our health and we can do it, there is a lot of help and guidance in this book.Highly recommended to everyone.
