## Synopsis

It's been four years since the tragedy that claimed the Mountain Ridge Alpha and Mel, the mutual mate of Alpha Hassan Amari and the beta Toval. As a mated Alpha-beta pair, Toval and Hassan have managed to defy the odds and come through tragedy stronger than ever, despite the shroud of secrecy that surrounds Mel's death. Strange letters from an impossible sender throw the fragile balance of their healing into question. Alphas are dying in Europe, and a group of omegas with a deadly mission has taken credit. They call themselves Epsilon, and they're hell-bent on overthrowing the hierarchical system that has ruled the shifter world for as long as anyone can remember. Meanwhile, the success of the European Council breeding program, known colloquially as the Futurus Initiative, has increased pressure on stateside Alphas to conform in order to save their dwindling population. Hassan and Toval's joint effort to fight the Initiative seems to have failed, but Epsilon has less peaceful methods in mind. One letter changes everything. The leader of Epsilon chooses Hassan and Toval to deliver his ultimatum: Abandon the initiative, or every pack Alpha in the Council will die. Toval and Hassan find themselves the unwitting messengers of this twisted message, pitted against a corrupt Council and a ghost of the past who will stop at nothing to get what he wants. Time will tell if their love can withstand this dangerous new alliance. This is book 10 of the Mountain Shifters Series and contains story elements that are meant to be read in the context of the events in the rest of the series. This work is meant for mature audiences only. HEA, no cliffhanger.

## Customer Reviews

I absolutely love The Mountain Shifters series. I generally stay away from self-pubbed books, but this series just caught my interest from the first book, and I always await the next one with baited breath. Some of these couples I just love, and some I have shed tears for while reading. L.C. Davis is one of the best voices within shifter M/M books, and creates books with loveable characters and amazing storylines. That being said, this book was a bit of a train wreck. First of all, is Keith Kenneth, the secluded alpha who mated with Jesse? Because then he suddenly got a name change out of nowhere. And there was Duke's brother who had two names in the span of two pages. The book in the end felt somewhat rushed, and generally the overall storyline felt somewhat rushed in the book. However, it is not a bad book, and if you enjoy the series, you will also enjoy this book. Mel, Toval, and Hassan has never been my favourite couple in the series, but this book does tie up some loose ends, and creates the jumping board for the new chapter in the series. I for one cannot wait for Avery's book which I hope will be here sooner rather than later. And I sincerely hope that Roux will also get his own book. Davis manages to find the core of her characters and of the series itself in all her books. It's about love and respect, and to remember the past and learn from it. It's about fault and redeeming oneself in the eyes of others, but also in your own eyes. And this 10th instalment is the epitome of this. The love flows on each and every page, and that's what makes this series so beautiful. I still miss Mitchell, though.

Lots of good things happen in this book and for the most part it left me happy but I still miss my favorite alpha. I really like this series very well written.
