All About Nepal (Country, People, Customs, Culture, Travel) (Philip's Travel Guides)

Synopsis

Nepal is a country sandwiched between Indian and China. Having thousands of years of history, it is an ideal country for armchair travel and also for actual tour and travel. Every village here affords new experiences. This eBook introduces this history, culture, customs, people, things to be seen, and places to be visited. There is plenty of travel advisory. It is a must-read for anyone who is interested in knowing about Nepal or Nepal-travel.

Customer Reviews

This book about Nepal is very informative, has a lot of information to learn about this country. For me, Nepal was always a far distant location in the world, something that would be hard to imagine. I love geography and love learning about different and little known places, and Nepal is one of them. I'm glad I found this book. Recommended!

This book is just alright, very little within that is not found elsewhere especially on internet. Do not see it as particularly insightful nor helpful. Certainly not "all" except that is the only topic.

This has much more detail than Country Notes and is interesting reading. Lots of history, customs and tradition. I am surprised how well the cellular network works here. AT&T could learn a few things.

I ended up getting this book to read before and during my journey to Nepal. Turns out, i was having so much fun trekking i didn't get around to it until the flight back. As i'm sitting on the flight reading within the first couple pages i was completely turned off. This author does not even spell Kathmandu correctly, it's spelled Katmandu multiple times. After discovering this I decided to stop reading this book; if the author can't spell Kathmandu properly i wonder what else is incorrect in this book.... Nice try.

purchased this for a trip to Nepal. Both my husband and I thought it was very helpful--gave us a quick overview of the country, culture, and places we wanted to see

Lots of good facts and lists of things to do
Poorly written
Totally uncritical--as if they were selling something to the reader
