## Customer Reviews

This is an amazing story that exposes feelings of naivety, vulnerability, fear, the sickness of certain members of the human race and the resilience and strength of a young boy. The author blends exquisitely the combination of this young boys plight and the amazing history of the countries mentioned in the story. Reading this novel was like eating a biryani dish suddenly stopped by swallowing a hot pepper. Riveting, exciting, sad, disturbing were all reactions to the twist and turns in this book. A must read for everyone.

This novel has been a very intriguing one, narrating complex issues and cultures. The time-zone in which the novel is set is very beautifully captured and narrated through the historical and political references to the place. The details of the culture and customs are very well articulated that you feel like you are translated into that space in real. The horrific experiences and turmoils of the main character Kano, makes one question the brutal human nature of society and is very disheartening. All the encounters are extremely daunting and to believe that they existed so early on in the seventies is unbelievably sad and disturbing. It throws light on to a topic that is less discussed and is still prevalent widely. This book is an eye-opener to it and hence is a must read for everyone.
