The author's real world experience as both a journalist and educator really comes through in this book. I would consider it essential for students, educators, and experienced journalists who are learning or re-learning new skills for the digital landscape.

Gitner does an admirable job helping the rookie and veteran photographer and writer understand the deep complexities of the multimedia narrative in a media savvy world. His examples and style of writing make this text accessible to anyone interested in learning more about using multiple forms of media to tell stories effectively and professionally.

I enjoyed this book immensely, the level of detail was just what I needed. Seth Gitner breaks everything down, this is an A-Z tome of multimedia storytelling and it will be my go to reference for years to come.

Expectations met.

Outstanding - comprehensive while at the same time full of very practical information.

A must read for all Multimedia Storytellers.

The best dictionary for English Majors!
