"Rusty Wilson's Hairy Trio of Bigfoot Campfire Stories" by Rusty Wilson consists of three distinct tales about alleged "Bigfoot" encounters. Rusty is a fly-fishing guide in traditional "Bigfoot" country. Consequently, while relaxing around a campfire after a hard day of fishing his clients naturally begin to share stories. Over the years Rusty has collected many of these stories that purport to be true accounts of people encountering a "Bigfoot" at some time in their past. Rusty has compiled at least half a dozen anthologies of these tales; this is one of them. The three tales in this book run the gamut in their descriptions of the Bigfoot encountered. In two cases, the creature was extremely violent, aggressive, destructive, and even vindictive in its attacks on the humans who dared to enter its habitat or range. The third tale depicts a family of gentle giants, whose best defense is to remain hidden from human eyes to the extent possible. While I wouldn't be so gullible as to automatically believe every Bigfoot story I heard, any more than I would believe every fish story, or any other class of stories, I DO believe that some, perhaps most, of the tales collected by Rusty Wilson are true accounts of some large, ape-like creature not yet officially identified or given taxonomic nomenclature. Bigfoot? Or somebody's escaped pet chimpanzee? I have my personal opinion, but this is a book review, not an account of my opinions. (But it would have to be an awful lot of escaped chimpanzees to account for all the tales!) The stories Rusty shares certainly do have a great deal of attention-grabbing essence about them, and it would be mighty difficult to hear these and NOT believe them while sitting around a campfire after dark, somewhere in the deep, dark woods. Every crackling branch or rustling leaf would be interpreted as Bigfoot sneaking up on the campfire with mayhem on his mind. Even without the campfire or the deep, dark woods, these tales certainly draw you in and keep you focused on the tale. Your mind is not going to start wondering what's for dinner, or worrying about that presentation you have to give tomorrow. You will be focused 100% on Bigfoot and the tale you are reading. Whether you are a "believer" or just like a good story, this book's three tales will make you wonder... what's really out there? I recommend this and all the other collections of Bigfoot Campfire Tales provided by Rusty Wilson. If nothing else, they are good stories.

Even if you're not believers, the two tales "Camping with Uncle Hairy" and "Terror on the River" were very suspenseful accounts of people trapped in their surroundings looking for means of escape which made for exciting reading, the unfortunate thing being they were sandwiched between the other three stories with no table of contents and handy links to get to easily. My favorite passages from the two tales were "He was still right there! How could this thing run that fast?" and "A sound I will never forget...It started out as a very loud and deep growling and soon turned into a

high pitched undulating scream, echoing through the canyon." I'd definitely recommend those two tales for sure. I'll be concentrating on reviewing Halloween themed book thru the month of October for the second year running so feel free to "see all my reviews" most recently if you're of a like mind and am looking for some spooky stuff this time of year.

I read the previous reviews and decided to try this trio of Bigfoot stories. I've read this several times and really enjoyed this book. His writing style is easy to follow and he really knows how to tell great stories. They will definitely linger and make you think. A fair word of warning, Rusty's stories are highly addictive! You can't read just one story or one book. You will crave more! Even if you don't believe in the big guy, you might just change your mind. Trust me, start your collection now. These stories are so entertaining you will read them again and you will want more! I love his books and have bought several more. Thanks for entertaining us Rusty, we want more! Update: Rusty is planning a Bigfoot hunt! Check it out on his Rusty Bigfoot blog page. Another great book is coming!

I enjoy Bigfoot stories so this was a quick, fun read for me. I enjoyed that each was told in the teller's voice rather than the author's.

I never thought I'd be reading a book with Bigfoot stories but it was offered free for the day and I thought, "what the heck?" What great stories! Rusty should put his fly-fishing aside and concentrate on writing, not that he needs lessons. His stories are remarkably entertaining, well written, contain inventive plots, and often offer a touch of humor. Whether you believe in Bigfoot or just enjoy a good campfire story, you can't go wrong. I immediately ordered another of his Bigfoot books. I can't wait to read them around the campfire next time we're camping with friends. Then I'll dare them to leave their tents in the middle of the night for the outhouse!

This is the best Bigfoot book and I think that the government has to get it that is what I say. It inspires me to get the whole world to get it. Even if you can also use the best possible price for it I say this is the most popular surprise that I think the book is amazing. Rusty Wilson's Hairy Trio of Campfire Stories are the best Bigfoot Campfire Stories ever. I was going to put more stars on it!!!!!! I LOVE IT!!!!!!!!!!!!!!!!!!!!!!

I love Rusty's books. Very, very entertaining. Well written. Enjoyable. Interesting. Always waiting for the next book to come out. Great read.

Riveting, one sitting read from a gifted storyteller who will keep you sitting until you're done. Will make a believer out of the die-hard skeptic, young or old. I ended up buying all of Rusty's books and kept searching for more.
