Customer Reviews

Goodness! This is one awesome tofu kitchen book! My family just loves the distinct cooking style of the Chinese that's why we make it a point to eat out during weekends. We never get tired of it, but it's becoming more expensive and we have to cut down some cost. Good thing I came across this piece while I was in search for high quality non-stick pans. There's a wide collection of tofu dishes that offers variations to it making it tastier and appealing. I'm thinking of preparing teriyaki grilled tofu over the next few days. Sounds delectable, huh?

I've used Tofu for years, thought I knew all the secrets. Discovered many more within this book!

Great book, easy to follow and lots of ideas

First time to take on this diet and the book is introducing the ways of preparing you have the biggest gain. I have found out that is an alternative to the beef and most people who enjoy it include the vegans and vegetarians. The preparation directions with the right proportions of the Ingredients have been presented for me to try out.

My daughter likes tofu and she got me to try it. I found this book and now we are trying these new recipes. Delicious and easy to follow recipes inside. Will look for other recipe books by this author.
