CORRECTIONS OF ERRATA from the first printing of the 2nd edition.(Hopefully these corrections will be incorporated in subsequent printings.)PAGE 133 Answer Key: The "Critical Reading" sections should be labeled "Section 4", "Section 6", and "Section 8." (The first section should be changed from "3" to "4.")The "Writing" sections should be labeled "Section 3" and "Section 9." (The

first section should be changed from "4" to "3.")PAGE 189 Section 6:~ ~ On Question 17, change the number in the "Total/Yes" cell from 2090 to 2000.PAGE 203 Answer Key:~ ~ On Section 4 (Math), change #3 to "B," and change #11 to "C."PAGE 211 Section 4:~ ~ Change answer of question 3 from "A" to "B."PAGE 212 Section 5:~ ~ Change answer of question 11 from "D" to "C."PAGE 442~ ~ Question 3: Change "what is the smallest possible value of y" to "what is the largest possible value of y."PAGE 480 Section 4:~ ~ Question 3: Change "In order to find the smallest value of y" to "In order to find the largest possible value of y."PAGE 856~ ~ Question 36: Change "Set the y equal:" to "Set the y values equal:" Change second equation from " $= x$ " to " $9 = x$."~ ~ Question 38: In first equation, the expression " $9(1/3)$ " should have an exponent of "n" just outside the closed parenthesis.

Christopher Black, M.A. is the founder and director of College Hill Coaching. He has been a consultant to the nation's leading educational publishers and software developers and is coauthor of McGraw-Hill's SAT. Mark Anestis is the founder and director of The Learning Edge and coauthor of McGraw-Hill's SAT.

I bought this book to get prepared for the upcoming SAT exam.After solving the first three practice exams from the book, I realized thatthe style and the levels for each sections were different.Especially for the math section, the questions were unnecessarily hard when compared with the actual exam and the collegeboard edition of SAT prep book.Questions for reading were easier than the actual exam as a total, but the section itself was not as horrible as the math section.Writing seemed to be the only section worth solving.I strongly recommend this book used for additional practice only, but surely not the only book used to prepare for the SAT exam.

I am a high school student who has taken/is still going to take the SATs. Like most students, my weakest subject is Critical Reading, then writing. I'm telling you, there's no better book (other than the BB) for CR and writing. I find it to be slightly more challenging than the BB, but so what? Practice hard, ace the test right? Yeah i agree with the other reviewers that there are seldom incorrect explanations, but that's common in every book. In my opinion, I think the explanations themselves are really in-depth and understandable, which is what you would want in an SAT book. I can't say anything for the Math section, as I usually skip them (I just take practice sections, not tests with these), because I have done well on the Math. Plus, McGraw-Hill uses white (as in white like this page) paper, which is a nice contrast to Barron's or princeton review, which usually has a more

yellowish-color to it, so McGraw-Hill is better on the eyes. If you're a student looking to improve CR and Writing, look no further; this is your answer (other than BB).

Nice

Its math and critical reading sections are slightly harder than those on the real SAT. It also provides explanation for every questions, which the college board SAT book does not have.

One of the best book ever :D 11th grader should start using it right away. So that, they can take SAT test to prepare for their university :D

Another good book for SAT preparation. I have already recommended this to my friends whose children are preparing for SAT.

Very good SAT reference! It was a very effective tool in which helped me to prepare for the SAT and PSAT.

all 12 test has answer with explanations.good book to test and practice tests.Good reference book and prepare for SAT.
