George McDonald has lived and worked in Amsterdam as deputy editor of KLM's in-flight magazine, Holland Herald. Now a freelance journalist and travel writer, he has written extensively about Amsterdam and the Netherlands for magazines and travel books, including Frommer's Amsterdam; Frommer's Belgium, Holland & Luxembourg; Frommer's Europe; and Europe For Dummies.

On a week's trip to Amsterdam after not having been there for years, I purchased both Rick Steves and Frommers Day by Day. I expected Rick to be the go-to guy as far as carrying the guide with me. Not So! Frommers has an excellent fold-out tram map in the front and a "detailed enough" city map handy in a back pocket. This was the one I carried and used the whole week while Rick sat in the hotel room and was referred to in the evenings. I used it not only to plan tram trips, but to assist other travellers trying to tram around town (they all wanted my book). My recommendation, spring for both, because Rick gives more detail and more reviews, while the Frommers maps were the best. With Trip Advisor on my phone and Frommers in my hand we saw massive amounts of Amsterdam quickly and efficiently. Okay, there was that one time when I thought North was South, but.....

My wife and I did a three city tour for 10 days in Europe and we got three "Day-by-Day" Frommers books for each city, and I'll tell you my vacation would have sucked had it not been for these books. Not only does Frommers make discovering the city much more easier but the way information is organized is very easy to read, find and consume. I definitely like the neighborhood walks which allows you to discover "nooks and crannies" that you would have never thought of to see. I definitely recommend the paper back copy (I am a firm believer of electronic everything) as its much more convenient to reference and use than an electronic copy. The folded map in the back of the book is solid quality and has a good thickness to it, you can take it out and fold back up all day long and it will not rip. These books are perfect for anyone visiting a European city, you will definitely appreciate your visit with Frommers.

These frommer pcket books are reallly really helpful, specially if you are visiting several countries and traveling light. The book gives you a good advice on that to do on the days you are in a city,

perhaps sometimes I follow / combine the two days in one , not going to all the recommendations but to the ones that sound good or interesting to me. It won't tell you where to eat, for that just stop to a local place where you see many people seated, check their prices, and kind of food and be happy and open to new foods. Don't miss the Van Gogh museum. The red light district is overrated. and also use airbnb as finding hotels can be very difficult on the weekends in this city.

this has been the most helpful book in planning my upcoming trip. It is a perfect size to be able to carry around when I'm trying to travel light! Don't hesitate on this one. It has a fold up map in a pocket in the back of the book. I have taken it out and put post-it book marks on the must see places. After a few days of study I feel like I have been to Amsterdam!! It will certainly help on arrival to have helped get my bearings. Love it.

I just received the book and have not used it in Amsterdam yet but just reading through it I am impressed--the size will make it easy to carry at about 4 by 7 inches--the information concise and complete--the fold out map on the front cover is very convenient and the larger map in the back pocket has all the detail you could want--the maps in the individual sections of the book for things to see and do give a clear reference and again the corresponding descriptions provide sufficient detail--great too that it covers things like emergencies from medical, dental, to the embassy addresses and phone numbers. Overall very impressed and I have to believe that it will make take a lot of the stress out of our visit.

I ended up being stuck in Amsterdam for almost 2 weeks as a result of the volcano. This little book fit right into my pocket and went everywhere with me. I ended up going just about everywhere it recommended and then some. I also had another book, a little larger, that supplemented for trips outside of Amsterdam. There was no doubt that I had perfect coverage and in fact will be lending my books to some friends who will be heading over later and, hopefully will not get stuck in town.

If you are visiting somewhere for a few days I find this series always the best. I have over a dozen of them and always look to see if the city or area I am visiting has one of these. I especially like the top things to see in one day / two days / three days. The form factor is convenient as well - fits in a pocket so you can always bring it with you, and you don't leave it behind. Some of the maps can be a challenge for those of us who are visually challenged (small print)

One of the best guidebooks I purchased. Clear, easy to understand selections, and well organized. The size is small, handy for a traveler. The book is packed with information and a hundred percent more than expected
