Better Homes And Gardens Flea Market Style: Fresh Ideas For Your Vintage Finds

Synopsis

The Indispensable Guide to Scoring, Using, Collecting, and Displaying Vintage Flea Market Finds
Flea markets, Craigslist, and even a neighbor's curbside can yield vintage treasures that make a house sparkle. But knowing what to do with those pieces can be intimidating. This innovative book shows homeowners how to use flea market treasures to transform a home. You will learn how to seamlessly combine pieces into a cohesive space that truly reflects your style, whether Cottage, Bohemian, Midcentury Modern, or something else. The book also includes helpful information on how to display and use esoteric, fun, and one-of-a-kind collections. Several DIY projects explain how to create fun new pieces from flea market finds, such as wall frames from vintage hand mirrors. Flea Market Style celebrates both the thrill of the hunt and the rewards of using and displaying every special find.

The iconic BETTER HOMES AND GARDENS brand is one of America's most trusted sources for information on cooking, gardening, home improvement, home design, decorating, and crafting. Today, the brand encompasses books, magazines, and digital media.

My two favorite things: junking/garage sale shopping and collecting/ looking through decorating books. This book combines both! I like the format of this book and the pictures are ones I haven't seen before. I am glad to be adding this book to my ever growing collection of decorating/design

books.

This book is about repurposing flea market finds and displaying collections, to add character and interest to your home. The pictures give great examples and are very inspiring! The photo descriptions give back-story, insight, and encourage you to take a deeper look at each picture. The main text, however, I found to be cliché, beginner-level decorating advice, much of it based on the writer's personal taste. I stopped reading it, and focused on the photos and photo descriptions, and loved the book based on those parts. Recommend, if you're a visual person, looking for inspiration.

If you love the flea market style, it's worth buying lots of pics I've never seen before, and I buy all those magazines, I definitely recommend buying it! If that's your style.

Great book! Lots of detail and beautiful pictures to get examples of what the writer is teaching about. Many ideas for home decorating, especially if your style is modern eclectic/ Bohemian like mine is. I already have done a few recommendations I found from this book and they turned out wonderfully! I also got turned on to new hobbies and learned new things, such as tramp art. Love this book!

Beautiful pictures. Has ideas everyone will enjoy for all decorating styles.

Gorgeous book. Thanks. Lovely photos.

Nice book! great ideas.
