## Customer Reviews

We're off to Spain at the end of the month to celebrate Granny's 70th birthday. Monkey has already started packing for the journey (I joke not!) and Busy Airport has got him talking about our trip. He's been on a plane a few times now and loves the whole airport experience. . . As well as the bold text of the book, on each page there is a question to be answered. Great for discussion and observation. Monkey has loved looking at this book, I have a feeling it will end up in his back pack at Birmingham Airport soon. \* over40andamumtoone.com \* --This text refers to an out of print or unavailable edition of this title.

We have the Busy Zoo and our 17 month old loves it, so we tried the airport. It wasn't as nice as the zoo, the parts of the page that move were just boring.

My boys LOVE these books! It's perfect to introduce to children around 15 months. I bought them for a recent trip and gave it to them to "read" on the plane. I didn't give it to them before the trip because I wanted to make it something "new" for them. They spent 30 minutes just sliding, pulling, pushing, etc all the neat little elements in this book. I like that there are no flaps. Older kids might like them but for my 15 month olds, they just like tearing flaps. You do have to supervise them while reading the book to make sure they don't pull the tabs out too hard. Overall, it's very sturdy!

I got this book for our grandson - 14 months- who travels with his parents on planes. After reading the reviews and looking at other books, I'm glad I selected this one. Why? It's a board book and at 14 months old, it will last a lot longer. It's interactive which he loves! The information is mostly accurate - close enough for a toddler. I gave him the book with a toy plane. He loved it!

Great product with unique interactive pages for kids. My boys (ages 3 and 1) love pulling, pushing and turning on each page. Sturdy construction with extra thick pages.
