## Customer Reviews

Here is the deal if you are looking for advice on how to choose your wedding dress this is a book to add to your collection. It basically gives you a break down of the different styles and cut of wedding dresses and what works with what. If you are a novice in terms of garment construction and the cut that are used to classify styles, no worries this book helps you along with detailed description of what is what. This I know helps with the decision process especially if you have the malady or asset of (Depends on whose perspective you get) being busy like my self. What I really loved about this book is that the author provides links to bridal sites to consider when searching for a dress. This is a tremendous help. Not having to do the hunt all by your lonesome. Then of course the sweetest of all are all the beautiful gowns displayed. Talk about eye candy, Wow!

Weddings: Wedding Dresses reminds me of "Say Yes to the Dress!" My daughter LOVES anything to do with wedding dress design. Of course she "oohed and ahh'd" with the fantabulous pictures in this book. I did too - although I'm just window shopping - don't plan on making that walk again! Lol The author lays this picture guide book out nicely. With every style of gown you can imagine! The links are great too if you want more information. Along with oodles of tips and tricks to make your day run seamlessly. Bottom line is, if you plan on walking down the isle one day, I suggest you let this book inspired your Princess wedding day! Excellent!

The photographs are amazing! Sam Siv mentions every style of wedding dress complete with his recommendations for which body types, age should wear that style and amazing photographs for examples. I didn't even know there was such a style as sheath. I enjoyed reading the history bit too and was surprised to find white has not always been the color of wedding dresses. Sam Siv discusses brides may no longer stick to white and gives celebrity who have followed that new trend. This is a complete guide to wedding dress, providing brides with the knowledge to know what style is best before they shop. I definitely recommend it to all brides.

This was a great book about Wedding Dresses, the different styles, what to consider when picking a style, etc. I was surprised by all the different aspects of the wedding dress. I was glad to see that this book covered both traditional and non traditional wedding dress styles.

Every bride knows there is the perfect dress out there. But the hunt can be overwhelming. This book really helps to narrow the search. It is a great guide for what style looks best on what body type. etc. Before you hit the stores, buy this guide.

Fantastic and amazing read, especially recommended read for women who has plan of getting married, a good guide in choosing the appropriate wedding dress.

Ginormous waste of time.
