Everyone knows that bath bombs are usually pretty expensive if you want fancy ones. They make taking a bath a thousand times better than a normal bath. The best part is that each one can be quite unique and give you a different glorious sensation. The problem is that they cost so much. Well, they used to until I read this book! I had no idea these could be made so inexpensively. I am on a budget and usually consider bath bombs to be a rare treat for myself. After reading this book I

see that you can do it all yourself quite often and within the range of a budget!

Got some bath bombs as gifts and I have been wanting to recreate them. However, they are hard to find thus I decided to make one for myself. I got this book for the promise it brings. This recipe book is the bomb! It didn't only provided some recipes but also shared what to do to make bath bombs effective and have longer shelf life. It was great that there was a section on FAQs. The recipes and the instructions are good enough to follow for a beginner like me. IT is an entry level that won't discourage readers to make their own version. I thing more practice of doing the recipes and my version will be a good give away as gifts.

This book is just amazing! Making bath bombs for your self or for giving away as gifts to friends and relatives is a great idea. This book is great fun! What I love about this book is it teaches how to create your own bath bombs and even how to create your own essential oils to use in a bath bomb. The book gives you so many options of flavors and aromas to choose from and it's so much cheaper if you create your own. I plan on making several of these as gifts for some friends. Fantastic!

This book I bought for my wife! She makes organic cosmetics for yourself. Sometimes these things made with your own hands can be a wonderful gift. Wife enjoyed this book and she has already
