The arrangements are beautiful. There are some cases in which the actual hymn gets a little lost in the music with a contemporary style that takes away from that good ol' fashion hymn. There is a level of difficulty that I appreciate rather than the standard quarter/half notes for the melody. If the written music is too difficult and you are mildly creative, you can always "dumb it down" a bit. Great

selection.

Not at all. I ordered 2 books. I needed a b-flat trumpet part with keyboard printed part. One book had a C-trumpet part and the other had only a CD and no printed keyboard part. So I was very disappointed. Sent them both back. From now on, I'll have to go to a brick & mortar store, so I can see what I'm buying, as the description is not always done very well on the internet.

This book is OK. The arrangements have such a modern slant that they will probably sound a bit too contemporary in a very traditional church service. The purchase is worth it simply for the additional exposure to other possible arrangements of these hymns. However, if you're searching for the more traditional, this book is not for you.

My cover didn't look like this so I'm not sure if this was the one I purchased. My cover was the same as the piano accompaniment cover, and I fell in love with the CD- pipe organ amazing. Trumpet arrangements also lovely- some challenging, so will be able to work on them for a while. Thank you.

If you have Great Hymns, then you will love this. I believe it is better than the first one.

Good Collections for junior high or older players.

Excellent arrangements for the advanced high school / college player. A few songs provide opportunity to also use flugel (Softly and Tenderly) and picc (Lead On, O King Eternal), a very rare opportunity in today's sacred trumpet music. Add an organist to the piano accompaniment to make a huge difference in the total sound of the piece. And Phil Smith on the included CD provides an excellent example of what the pieces are SUPPOSED to sound like when we play them!

These are excellent hymn arrangements for trumpet. They are creative and playable while not being showy, making them very useful for church. This second book is much better than the first volume ("Great Hymns"). However, the fantastic playing by Phil Smith on the accompanying CDs of both volumes makes them worth it even if you never play the arrangements yourself.
