Customer Reviews

As usual, DK Eyewitness Books has produced an excellent portrayal of what the globe is doing and

has done with the space explorations. I wish I had this book prior to my recent tour of NASA's JPL in Pasadena, CA. It explains a lot. I really like the arrangement of the book, it's illustrations and photographs make it vary engaging. I liked this book and learned a good deal. I also like the way updated information is added to the book over time.
