Firefighting

Synopsis

Explores the role of firefighting in human history while chronicling the world's most famous fires. An innovative, vividly illustrated chronicle of humankind's struggle to subdue nature's most primal and destructive force -- from Rome in 64 AD to the World Trade Center on September 11, 2001 --

Firefighting examines history's most formidable fires, showing how each influenced the evolution of firefighting technology, equipment, and tactics. Following today's firefighters as they prepare to meet the challenges of tomorrow's fires, no other book has explored the role of the firefighter in human society-past, present, and future quite like Firefighting.

Customer Reviews

Jack Gottschalk served for many years as a licensed fire investigator and is well versed in all facets of fire prevention, detection, and analysis. As a historian of firefighting, Gottschalk has contributed numerous articles to newspapers and journals, and he maintains close ties with firefighting agencies and training centers. He lives in New Jersey.

My husband, a retired firefighter, is enjoying this book. He says it's well written, describes the life of a fireman ~ authentic as anything he has read.

My sons both are firefighters and love reading this book! It is very informational and good. One has read it and the other one is reading it now.

I gave this book as a gift to a collector of fire fighting paraphernalia and he really likes it. Lots of great pictures that make it interesting.

good book

As expected

A book every firefighter should enjoy. Amazing history book of firefighting all around the world, most significant fires to date.

Awesome book. Exactly what I was looking for.

Or would that be "disasters!" This book features an in-depth examination of 65 fires from all around the world and in a variety of categories. Ship Fires Explosions Forest Fires Fires in the Workplace This book shows how each fire influenced the way in which fires are fought today. This book shows the latest high-tech firefighting gear and vehicles. Shows the evolution of firefighting technology, equipment, and tactics.
