Corporate Finance: The Core (4th Edition) (Berk, DeMarzo & Harford, The Corporate Finance Series)

Synopsis

NOTE: Access Code is NOT INCLUDED For MBA/graduate students taking a course in corporate finance. An Emphasis on Core Financial Principles to Elevate Individuals™ Financial Decision Making Berk and DeMarzo's Corporate Finance uses a unifying valuation framework, the Law Of One Price, to present the core content instructors expect, the new ideas they want, and the pedagogy their students need to succeed. Corporate Finance: The Core fits programs and individual professors who desire a streamlined book that is specifically tailored to the topics covered in the first one-semester course. For programs and professors who would like to use a text in a two semester, or more, sequence, please see Corporate Finance, the 31-chapter book also by Jonathan Berk and Peter DeMarzo. Also Available with MyFinanceLab, MyFinanceLab is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts. Note: You are purchasing a standalone product; MyFinanceLab does not come packaged with this content. Students, if interested in purchasing this title with MyFinanceLab, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. If you would like to purchase both the physical text and MyFinanceLab, search for: 0134409272 / 9780134409276 Corporate Finance: The Core Plus MyFinanceLab with Pearson eText -- Access Card Package Package consists of: 0134202643 / 9780134202648 Corporate Finance: The Core 0134202910 / 9780134202914 MyFinanceLab with Pearson eText -- Access Card -- for Corporate Finance: The Core

Customer Reviews

Jonathan Berk is the A.P. Giannini Professor of Finance at the Graduate School of Business, Stanford University and is a Research Associate at the National Bureau of Economic Research. Before coming to Stanford, he was the Sylvan Coleman Professor of Finance at Haas School of Business at the University of California, Berkeley. Prior to earning his PhD, he worked as an Associate at Goldman Sachs (where his education in finance really began). Professor Berk's research interests in finance include corporate valuation, capital structure, mutual funds, asset pricing, experimental economics, and labor economics. His work has won a number of research awards including the TIAA-CREF Paul A. Samuelson Award, the Smith Breeden Prize, Best Paper of the Year in The Review of Financial Studies, and the FAME Research Prize. His paper, "A Critique of Size-Related Anomalies," was selected as one of the two best papers ever published in The Review of Financial Studies. In recognition of his influence on the practice of finance he has received the Bernstein-Fabozzi/Jacobs Levy Award, the Graham and Dodd Award of Excellence, and the Roger F. Murray Prize. He served as Associate Editor of the Journal of Finance, Director of the Western Finance Association, Academic Director of the Financial Management Association, is a Fellow of the Financial Management Association, and is a member of the advisory board of the Journal of Portfolio Management. Born in Johannesburg, South Africa, Professor Berk is married, with two daughters, and is an avid skier and biker.

Peter DeMarzo is the Mizuho Financial Group Professor of Finance and current Vice President of the American Finance Association. He is also a Research Associate at the National Bureau of Economic Research. He currently teaches MBA and Ph.D. courses in Corporate Finance and Financial Modeling. In addition to his experience at the Stanford Graduate School of Business, Professor DeMarzo has taught at the Haas School of Business and the Kellogg Graduate School of Management, and he was a National Fellow at the Hoover Institution. Professor DeMarzo received the Sloan Teaching Excellence Award at Stanford, and the Earl F. Cheit Outstanding Teaching Award at U.C. Berkeley. Professor DeMarzo has served as an Associate Editor for The Review of Financial Studies, Financial Management, and the B.E. Journals in Economic Analysis and Policy, as well as a Director of the American Finance Association. He has served as Vice President and President of the Western Finance Association. Professor DeMarzo's research is in the area of corporate finance, asset securitization, and contracting, as well as market structure and regulation. His recent work has examined issues of the optimal design of contracts and securities, and the influence of information

asymmetries on stock prices and corporate investment. He has received numerous awards including the Western Finance Association Corporate Finance Award and the Barclays Global Investors/Michael Brennan best-paper award from The Review of Financial Studies. Â Professor DeMarzo was born in Whitestone, New York, and is married with three boys. Â Â

I ordered this book for an MBA course. The material is presented in a straight-forward manner and the chapters are explained enough, however I don't know if I would recommend this book to anyone looking to teach themselves this subject, as there are surely other textbooks out there that are more dynamic for self-starters. Having a professor teaching in conjunction with this material is a must in my opinion. *Please Note* Make SURE when ordering this book you realize that this is NOT the COMPLETE edition of this text; hence "The Core" in the title. There are around 300 extra pages in the full text (seen here:

http://www..com/Corporate-Finance-MyFinanceLab-Pearson-Student/dp/0132745097/ref=sr_1_1?ie=UTF8&qid=1328471461&sr=8-1). If buying for class, make sure to check what chapters are covered in your course; if this text meets your needs, it is a great way to save some money as opposed to buying the full edition.

Great book. I used this book for a finance course in graduate school. At that time I used a digital version. I have since went back and purchased a paper version. The book is written well and present clear and logical information and problems. I really enjoyed using this book.

Showed up in good shape. Good read. Reads easily, plenty of examples and formulas and tables. Index is easy to use if you're trying to find specific information.

I am not a "finance person" so my finance class was very challenging for me, and I had a lot of trouble understanding the textbook book recommended by professor. I decided to look at some other books at the library to see if there was something that was easier to understand. This book was much easier for me to understand. I decided to buy the loose-leaf one so that I can carry around just the chapters that I need to read and not have to deal with a big heavy book. I stapled each chapter together and take just one chapter with me at a time so I can easily read it while waiting in line, while at the gym, etc. This makes it less tedious than having to sit down with a big book.

An excellent introduction to (corporate) finance. The book starts off with the time value of money

concepts and slowly progresses to the more nuanced aspects in corporate finance. It gives an excellent foundation to different theories and uses it to explain phenomena experienced in the financial markets.

This order came with missing pages and I didn't realize it till we got later in the book at least 4 chapters were missing

This may not be the book you are looking for. It is the Global Edition and is not the same as the fourth edition.

No FinanceLab makes this purchase a terrible idea. My school sells these books for 135 including the lab, I was under the impression that I was getting a good deal due to one of the previous reviewers stating (mistakenly) that myFinanceLab was included. Needless to say I am very upset. Additionally it took over a week for my book to arrive. More money + money time - myFinanceLab = terrible. Not worth it. should state more clearly what is to be expected in this package deal and monitor comments more closely. I'm out \$50 (I guess \$15 + plus my time).
