HARLIN III has served as editor of the American Alpine Journal, is a contributing editor to Backpacker magazine, and is the author of the book Eiger Obsession: Facing the Mountain that Killed My Father. Harlin lives with his family in Hood River, Oregon.

The Mountaineers Books have reissued this lovely book about Mt. Rainier along with two others (North Cascades and Sierra Mountains). Good for them. This book is a sweet valentine to Mt. Rainier with stunning photos and personal and insightful writing. James Martin (photographer) and John Harlin III (writer) team up to offer as they say in the title "notes and images from our iconic mountain." Those of us lucky to live within sight of this gem in the Earth's crown realize how much The Mountain (as it is known to locals) dominates and permeates its surroundings. Instead of trying to cover the entire mountain the team provides photos and essays on Liberty Ridge (a very technical and dangerous climbing route), the Wonderland Trail (the amazing hiking trail circling the Mountain), and a profile of Mike Gauthier (the lead climbing ranger). I am a great Rainier fan having visited it often and read a fair amount on the subject. This book is a worthy addition to the Rainier oeuvre. The photos and text complement each other and offer a warm and glowing tribute to The Mountain's awesomeness.

I'm always excited when The Mountain is out in view, but the spectacular photographs and writing of this book show us so much more of Mt. Rainier. From the gentle meadow of Spray Park to the harrowing accounts of the climbing rangers, the many views of this magnificent mountain are well represented.
